

BIO Cameran

The reason I decided to want to work in esthetics is because I find skin very important to overall health and wellbeing. In the future, I would like to excel and get my RN to be able to do injections as well. My aunt is an esthetician and I would watch her all the time and practice with her. Where I live we dont have alot of people who do this kind of work and I would love to offer these services.

Best Friend Cameran

Cameran has always been a very driven and independent worker. She puts her mind to something, learns it, masters it and then enjoys sharing what she has learned with others. I think that esthetics is a great profession for her. She has always loved skin care and will, no doubt, take her education and experience and share what she has learned with her clients. - Cori Riddle (mom)

Penn Foster High School

DIPLOMA

This certifies that

CAMERAN RIDDLE

has completed the Course of Study as prescribed by

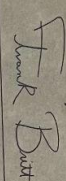

Penn Foster High School
