

LIP CLEANSE

Benefits:

- Removes lipstick.
- Removes oil from lip area.

Indications:

- Lip makeup.
- Natural oils on lips.

Precautions:

- Do not apply too much pressure on lips.
- Make sure gauze has been blotted well so it does not drip in client's mouth.

Contraindications:

- Herpes Simplex Virus, open lesions, blisters.

Pre-Procedure:

- Client greeting and offer water.
- Have client fill out history intake form or follow up form.
- Escort client to changing area.
- Help client onto bed, cover hair and drape with towel.
- Client consultation.
- Sanitize and glove hands according to Gloving skill.
- Magnifying lamp (First look).
- Eye cleanse.

Procedure:

- Take 1 piece of small, single ply gauze and fold in half. Dampen with warm water. Squeeze out excess water so as not to drip.
- Apply makeup remover to gauze and blot against hand towel.
- Fold the gauze in half again.

- Using index finger of hand, stretch skin taut at the left corner of obicularis oris. Slide gauze from left outer corner to middle of bottom lip and stop. Turn gauze over to clean side and slide from left outer corner to middle of top lip and stop.
- Turn to clean piece of gauze and repeat procedure on right side of obicularis oris.
- Repeat with new gauze as necessary until all lipstick is removed.

Post-Procedure:

- Remove gloves according to Degloving skill.

Infection Control:

- Dispose of soiled gauze in appropriate container after cleansing lip.
- Do not touch makeup remover to gauze when applying solution.
- Clean container with disinfectant after facial.
- Refer to OSHA and your state board.
