

Dress for Success

1. Clothing should be clean and fresh. Uniforms should be comfortable and provide good mobility, especially in the shoulder and elbow areas, but should not be too loose fitting
2. Wear clean undergarments everyday and keep them out of view, underwear elastic peeking out of your pants or exposed bra straps are inconsistent with a professional image
3. Hair should be up and off the shoulders
4. Socks or hosiery should be free of runs and harmonize with your attire
5. Keep shoes clean and comfortable, with good support, women should wear flat-heeled shoes
6. A clean, natural approach is generally best when applying makeup
7. Dangling jewelry is inappropriate, and hazardous to your clients
