

Esthetics 2025 Group B June

Question 1

Multiple choice (one answer)

What is OSHA? Regulates Safety in the workplace.

- ☐ Occupational Safety and Health Administration
 - ☐ Occupational System and Health Administration
 - ☐ Organizing Safety and Health Ability
-

Question 2

Multiple choice (one answer)

A person devoted to, or professionally occupied with, the health and beauty of the skin is a (an)

- ☐ cosmetologist
 - ☐ nail technician
 - ☐ esthetician
-

Question 3

Multiple choice (one answer)

The process of properly handling sterilized and disinfected equipment and supplies so that they do not become contaminated by microorganism until they are used on the client is

- ☐ autoclave
 - ☐ aseptic procedures
 - ☐ sanitation
-

Question 4

Multiple choice (one answer)

What step should be completed before every facial service on a client?

- ☐ personal hygiene
 - ☐ provide a robe, wrap, and slippers
 - ☐ client health history
-

Question 5

Multiple choice (one answer)

When using the woods lamp what does the yellow color on the skin represent?

- ☐ dry skin
 - ☐ oil
 - ☐ hyperpigmentation
-

Question 6

Multiple choice (one answer)

What do the brown spots represent when using a woods lamp?

- ☐ oil
 - ☐ broken capillaries
 - ☐ hyperpigmentation
-

Question 7

Multiple choice (one answer)

When a person is showing no signs or symptoms of infection it is called

- ☐ symptomac
 - ☐ aymptomatic
 - ☐ sick
-

Question 8

Multiple choice (one answer)

The ability for the body to destroy any bacterial that have gained entrance to the body and to resist infection in general is called

- ☐ natural immunity
 - ☐ immunity
 - ☐ acquired immunity
-

Question 9

Multiple choice (one answer)

What is the skeletal structure that protects heart, lungs, and internal organs?

- ☐ Tendons
 - ☐ Muscular Tissue
 - ☐ Thorax
-

Question 10

Multiple choice (one answer)

An infection that results when the bloodstream carries bacteria or viruses and their toxins to all parts of the body is called

- ☐ contagious
 - ☐ local infection
 - ☐ general infection
-

Question 11

Multiple choice (one answer)

Information compiled by the manufacturer about its product, ranging from the ingredient content and associated hazards to combustion levels and storage requirements are called

- ☐ ingredient information
 - ☐ data sheets
 - ☐ MSDA / SDS sheets
-

Question 12

Multiple choice (one answer)

_____ are disinfectants that are nontoxic, odorless and fast acting

- ☐ microorganisms
 - ☐ quats
 - ☐ phenol
-

Question 13

Multiple choice (one answer)

What is the definition of a Humectant?

- ☐ O/ W mixture
 - ☐ Heavier Creams
 - ☐ Attracts and retains moisture in the air by absorbing
-

Question 14

Multiple choice (one answer)

_____ in a 5 percent dilute solution is used to sanitize metallic implements.

- ☐ phenol
 - ☐ antiseptics
 - ☐ disinfectant
-

Question 15

Multiple choice (one answer)

What is the bodies largest Organ ?

- ☐ Lungs
 - ☐ Jaw
 - ☐ Skin
-

Question 16

Multiple choice (one answer)

One of the two upper chambers of the heart through which blood is pumped to the ventricles are the

- ☐ atrium
 - ☐ ventricles
 - ☐ pericardium
-

Question 17

Multiple choice (one answer)

The _____ nerve affects the external ear and skin above the temple, up to the top of the skull.

- ☐ auriculotemporal
 - ☐ temporal
 - ☐ supraorbital
-

Question 18

Multiple choice (one answer)

In what layer can you find melanocytes ?

- ☐ Spinosum
 - ☐ Granulosum
 - ☐ Basal Layer
-

Question 19

Multiple choice (one answer)

The middle part of a muscle is called the

- ☐ belly
 - ☐ insertion
 - ☐ origin
-

Question 20

Multiple choice (one answer)

What regulates the strength of electrical current?

- ☐ Amp
 - ☐ Conductor
 - ☐ rheostat
-

Question 21

Multiple choice (one answer)

A seaweed body wrap helps to eliminate what from the body?

- ☐ sebum
 - ☐ secretions
 - ☐ toxins
-

Question 22

Multiple choice (one answer)

What regulates body temperature?

- ☐ sudoriferous glands
 - ☐ sweat
 - ☐ sebaceous glands
-

Question 23

Multiple choice (one answer)

How many facial bones are there?

- ☐ 8 (eight)
 - ☐ 12 (twelve)
 - ☐ 14 (fourteen)
-

Question 24

Multiple choice (one answer)

What tendon connects the occipitalis and frontalis?

- ☐ Aponeurosis
 - ☐ Membrane
 - ☐ occipital
-

Question 25

Multiple choice (one answer)

The thin flat muscle of the cheek between the upper and lower jaw that compresses the cheeks and expels air between the lips is called

- ☐ masseter
 - ☐ buccinator
 - ☐ orbicularis oris
-

Question 26

Multiple choice (one answer)

The _____ is the basic unit of all living things

- ☐ cell
 - ☐ nucleus
 - ☐ atom
-

Question 27

Multiple choice (one answer)

The group of specialized glands that affect the growth, development, sexual activities and health of the body make up the _____ system

- ☐ endocrine
 - ☐ integumentary
 - ☐ digestive
-

Question 28

Multiple choice (one answer)

What is the difference between acids and alkalines ?

- ☐ Acids on ph scale are 0-5, Alkalies 7-14
 - ☐ Acids on ph scale are 1-7, Alkalies 6-14
 - ☐ Acids on ph scale 0-6.9, Alkalies 8-14
-

Question 29

Multiple choice (one answer)

Which bone sits between the eye socket to help form part of the nasal cavity?

- ☐ ethmoid
 - ☐ sphenoid
 - ☐ temporal
-

Question 30

Multiple choice (one answer)

The _____ cranial nerve is the sensory nerve of the face and controls chewing.

- ☐ fourth
 - ☐ seventh
 - ☐ fifth
-

Question 31

Multiple choice (one answer)

What is a solvent?

- ☐ The liquid part of a solution
 - ☐ An oil
 - ☐ A chemically derived product to fill in lines
-

Question 32

Multiple choice (one answer)

Which of the following is not a bacteria?

- ☐ Virus, Bacilli
 - ☐ Cocci, Bacilli, Spirilla
 - ☐ Fungi, Scabies
-

Question 33

Multiple choice (one answer)

What is another name for Herpes Simplex virus?

- ☐ Red sores
 - ☐ Cold Sores
 - ☐ Lip virus
-

Question 34

Multiple choice (one answer)

The parts of the muscle at the more movable attachment to the skeleton are called

- ☐ belly
 - ☐ insertion
 - ☐ origin
-

Question 35

Multiple choice (one answer)

_____ is the chemical process taking place in living organisms whereby the cells are nourished and carry out their activities.

- ☐ anabolism
 - ☐ metabolism
 - ☐ catabolism
-

Question 36

Multiple choice (one answer)

_____ are structures composed of specialized tissue and performing specific functions

- ☐ organs
- ☐ tissues

☐ cells

Question 37

Multiple choice (one answer)

What does the FDA define cosmetics as?

- ☐ Cleansing, exfoliating, and moisturizing
 - ☐ Organic and inorganic products
 - ☐ For Cleansing, beautifying, and promoting attractiveness
-

Question 38

Multiple choice (one answer)

What is another name for a blackhead?

- ☐ Comedone
 - ☐ Open Comedone
 - ☐ Sebaceous fillaments
-

Question 39

Multiple choice (one answer)

What is pathogenic bacteria?

- ☐ Pus formation
 - ☐ Diseasing causing bacteria
 - ☐ Infection
-

Question 40

Multiple choice (one answer)

What normalizes body temperature?

- ☐ Sebaceous glands
 - ☐ Apocrine glands
 - ☐ Eccrine glands
-

Question 41

Multiple choice (one answer)

Blood circulation from the heart to the lungs and back to the heart is called_____

- ☐ pulmonary circulation
 - ☐ general circulation
 - ☐ integumentary system
-

Question 42

Multiple choice (one answer)

The bones that form the sides of the head in the ear region are called

- ☐ temporal
 - ☐ maxillary
 - ☐ ethmoid
-

Question 43

Multiple choice (one answer)

A collection of similar cells that perform a particular function are called

- ☐ organs
 - ☐ cells
 - ☐ tissues
-

Question 44

Multiple choice (one answer)

The _____ is a barrier on the surface of the skin formed by sebum and sweat

- ☐ acid mantle
 - ☐ water barrier
 - ☐ alkaline barrier
-

Question 45

Multiple choice (one answer)

The combination of two or more substances united physically not chemically without a fixed composition and in any proportion is called a (an)

- ☐ mixture
- ☐ solvent
- ☐ compound molecules

Question 46

Multiple choice (one answer)

Substances that act as a bridge to allow oil and water to mix or emulsify are called

- ☐ surfactants
 - ☐ suspensions
 - ☐ miscible
-

Question 47

Multiple choice (one answer)

What does the Fitzpatrick scale used for?

- ☐ neither answer correct
 - ☐ to determine sun tolerance
 - ☐ to determine wrinkle depth
-

Question 48

Multiple choice (one answer)

What are mineral based substances used in cosmetics as lightweight emollients or vehicles?

- ☐ oils
 - ☐ silicones
 - ☐ acids
-

Question 49

Multiple choice (one answer)

The process used to soften and emulsify grease deposits and blackheads in the hair follicle.

- ☐ desincrustation
 - ☐ high frequency
 - ☐ light therapy
-

Question 50

Multiple choice (one answer)

The use of constant and direct current having a positive and negative pole and producing chemical changes when it passes through the tissues and fluids of the body.

- ☐ galvanic current
 - ☐ high frequency
 - ☐ spray machine
-

Question 51

Multiple choice (one answer)

Thermal or heat producing current with a high rate of oscillation or vibration. Uses alternating current

- ☐ steamer
 - ☐ galvanic current
 - ☐ high frequency
-

Question 52

Multiple choice (one answer)

Lipids which protect the cells from the water loss and provide hydration.

- ☐ keratin
 - ☐ intercellular cement
 - ☐ barrier function
-

Question 53

Multiple choice (one answer)

Hydrating fluids found between the fibers in the reticular layer

- ☐ oil
 - ☐ Vitamin A
 - ☐ hyaluronic acid
-

Question 54

Multiple choice (one answer)

What is high frequency?

- ☐ Fusion Current
- ☐ Direct Current
- ☐ An alternating current

Question 55

Multiple choice (one answer)

What is Galvanic Current?

- ☐ Alternating current
 - ☐ Indirect current
 - ☐ Direct current
-

Question 56

Multiple choice (one answer)

_____ is a combination of all the visible rays of the spectrum.

- ☐ white light
 - ☐ cromatic light
 - ☐ blue light
-

Question 57

Multiple choice (one answer)

Define Ohm?

- ☐ Electricity conductor
 - ☐ The unit of electrical resistance
 - ☐ Insulator
-

Question 58

Multiple choice (one answer)

Dry, scaly skin from the sebum deficiency which can be due to aging, body disorders, alkalies of harsh soaps, or cold exposure.

- ☐ vitiligo
 - ☐ rosacea
 - ☐ asteatosis
-

Question 59

Multiple choice (one answer)

Define Amp?

- ☐ An electrical charge
 - ☐ Unit of measure for the strength of an electrical current
 - ☐ A closed loop that electrons can travel in.
-

Question 60

Multiple choice (one answer)

The most common and least severe skin cancer.

- ☐ basal cell carcinoma
 - ☐ melanoma
 - ☐ squamous cell carcinoma
-

Question 61

Multiple choice (one answer)

A closed abnormally developed sac containing fluid, infection or other matter above or below the skin.

- ☐ melasma
 - ☐ keloid
 - ☐ cyst
-

Question 62

Multiple choice (one answer)

When using the woods lamp what does bacteria look like?

- ☐ brown spots
 - ☐ blue areas
 - ☐ orange dots
-

Question 63

Multiple choice (one answer)

A thickening of the skin caused by mass keratinized cells is called

- ☐ hyperkeratosis
 - ☐ melasma
 - ☐ keloid
-

Question 64

Multiple choice (one answer)

Solidified impactions of oil without the cell matter.

- ☐ comedone
 - ☐ sebaceous filament
 - ☐ wheal
-

Question 65

Multiple choice (one answer)

Distended capillaries from weakening of the capillary walls.

- ☐ bulla
 - ☐ telangiectasia
 - ☐ cysts
-

Question 66

Multiple choice (one answer)

Severe oiliness of the skin.

- ☐ desmosomes
 - ☐ seborrhea
 - ☐ couperous skin
-

Question 67

Multiple choice (one answer)

What are Apocrine glands? Where are they located

- ☐ Oil glands in the dermis
 - ☐ Sweat glands in the dermis
 - ☐ They secrete hormones into a duct, located in the skin
-

Question 68

Multiple choice (one answer)

What is the machine called that is used to sterilize implements ?

- ☐ Autoclave
 - ☐ Sanitizer
 - ☐ Steam UV cabinet
-

Question 69

Multiple choice (one answer)

What is a contagious disease?

- ☐ ringworm
 - ☐ neither answer correct
 - ☐ neural crests
-

Question 70

Multiple choice (one answer)

White, colorless areas from lack of pigment.

- ☐ hyperpigmentation
 - ☐ melasma
 - ☐ hypopigmentation
-

Question 71

Multiple choice (one answer)

Draws impurities to the surface as it dries up.

- ☐ gommage
 - ☐ clay mask
 - ☐ thermal mask
-

Question 72

Multiple choice (one answer)

What wax is applied using a figure eight movement?

- ☐ hard
 - ☐ soft
 - ☐ sugaring
-

Question 73

Multiple choice (one answer)

Components of serum that helps a serum penetrate deeply into the body.

- ☐ rose serum
 - ☐ lipids
 - ☐ mineral oil
-

Question 74

Multiple choice (one answer)

What color is dehydration when using the woods lamp?

- ☐ yellow
 - ☐ grey
 - ☐ Purple
-

Question 75

Multiple choice (one answer)

What is dehydrated skin caused from?

- ☐ A build up of scar tissue in the skin
 - ☐ Lack of moisture in the skin
 - ☐ Lack of oil in the skin
-

Question 76

Multiple choice (one answer)

A whitehead is also called a?

- ☐ Cyst
 - ☐ Comedone
 - ☐ Milia
-

Question 77

Multiple choice (one answer)

Obtained from shark liver oil and found in human sebum.

- ☐ salicylic acid
- ☐ squalene
- ☐ squalane

Question 78

Multiple choice (one answer)

Know for its humectant and moisturizing properties, vitamin content, metabolism, stimulation and detoxification and aiding skin firmness.

- ☐ squalene
 - ☐ iodine
 - ☐ seaweed
-

Question 79

Multiple choice (one answer)

What is the definition of Atopic Dermatitis?

- ☐ A disease of unknown origin
 - ☐ Skin disorder that involves an itchy rash (eczema)
 - ☐ A pruritic disease that begins in childhood
-

Question 80

Multiple choice (one answer)

Fast tapping, slapping, and hacking movement used in massage

- ☐ tapotment
 - ☐ petrissage
 - ☐ friction
-

Question 81

Multiple choice (one answer)

Chucking, rolling, and wringing are variations of ?

- ☐ tapotment
 - ☐ friction
 - ☐ effleurage
-

Question 82

Multiple choice (one answer)

Define Tinea Vesicolor

- ☐ An infectious disorder
 - ☐ Corpuscles
 - ☐ A fungal infection of the skin
-

Question 83

Multiple choice (one answer)

How is soft wax applied to the skin?

- ☐ with the hair growth
 - ☐ figure 8 movement
 - ☐ against the hair growth
-

Question 84

Multiple choice (one answer)

Excessive hair growth where hair does not normally grow.

- ☐ bromhidrosis
 - ☐ hypertrichosis
 - ☐ catagen
-

Question 85

Multiple choice (one answer)

Colors obtained by mixing equal parts of two primary colors

- ☐ tertiary colors
 - ☐ primary colors
 - ☐ secondary colors
-

Question 86

Multiple choice (one answer)

Colors formed by mixing equal amount of secondary color and its neighboring primary colors

- ☐ tertiary colors
 - ☐ complementary colors
 - ☐ warm colors
-

Question 87

Multiple choice (one answer)

Fundamental colors that cannot be obtained from a mixture

- ☐ secondary colors
 - ☐ primary colors
 - ☐ cool colors
-

Question 88

Multiple choice (one answer)

What is Sodium Lauryl Sulfate?

- ☐ A surfactant in Cleansers
 - ☐ Microsponge
 - ☐ Ingredient used in shampoo
-

Question 89

Multiple choice (one answer)

What is Carbomer?

- ☐ A moisturizer
 - ☐ An emulsifier
 - ☐ A gel
-

Question 90

Multiple choice (one answer)

What are fissures?

- ☐ cracks in the skin that penetrate the dermis
 - ☐ a boil
 - ☐ minor scratches
-

Question 91

Multiple choice (one answer)

A strategy for understanding key elements in developing business that also serves as a guide to making informed business decisions.

- ☐ business plan
 - ☐ promotion
 - ☐ work ethic
-

Question 92

Multiple choice (one answer)

The process of getting the attention of the consumer with the goal of increasing business

- ☐ promotion
 - ☐ salary
 - ☐ business plan
-

Question 93

Multiple choice (one answer)

A form of business ownership whereby two or more people share ownership, although this does not necessarily mean an equal arrangement in a partnership

- ☐ neither answer correct
 - ☐ partnership
 - ☐ LLC
-

Question 94

Multiple choice (one answer)

An employee's commitment to providing quality service.

- ☐ work ethic
 - ☐ professional image
 - ☐ business plan
-

Question 95

Multiple choice (one answer)

A method of compensation that specifies a certain amount of pay based on either a flat or hourly rate.

- ☐ sales
 - ☐ salary
 - ☐ commission
-

Question 96

Multiple choice (one answer)

What does Chamomile do ?

- ☐ Cools Skin
 - ☐ Calms Skin
 - ☐ Hydrates Skin
-

Question 97

Multiple choice (one answer)

What is the definition of Immunity?

- ☐ A nonspecific immunity to infection
 - ☐ Aquired after the body has overcome a disease
 - ☐ The bodies ability to resist infection and destroy bacteria
-

Question 98

Multiple choice (one answer)

Filtered black light that is used to illuminate skin disorders, fungi, bacterial disorders, and pigmentation problems.

- ☐ blue light
 - ☐ mag lamp
 - ☐ woods lamp
-

Question 99

Multiple choice (one answer)

What does Kaolin do ?

- ☐ Dries and used in masks for oily skin
 - ☐ Thermal feeling
 - ☐ Keeps masks wet
-

Question 100

Multiple choice (one answer)

What can be used on the hands after the hair is touched??

- ☐ Disinfectant
 - ☐ Sanitizer (hand)
 - ☐ Soap
-

Question 101

Multiple choice (one answer)

What is intrinsic aging ?

- ☐ Wrinkles
 - ☐ Dehydration due to skin aging
 - ☐ Smoking Damage
-

Question 102

Multiple choice (one answer)

What is Cell Mitosis ?

- ☐ Cells are called this in the Stratum corneum
 - ☐ When the cell divides
 - ☐ When the cell dies
-

Question 103

Multiple choice (one answer)

What is another term for a magnifying lamp?

- ☐ loupe
 - ☐ white light
 - ☐ diopter
-

Question 104

Multiple choice (one answer)

During desincrustation who hold the positive electrode?

- ☐ esthetician
 - ☐ mannequin
 - ☐ client
-

Question 105

Multiple choice (one answer)

What is the muscle massaged that covers neck and chest?

- ☐ Platsmya
 - ☐ Mentalis
 - ☐ Clavicle
-

Question 106

Multiple choice (one answer)

What is a massage movement used on very oily skin ?

- ☐ Tapotment
 - ☐ Dr Jacquet movement
 - ☐ Friction
-

Question 107

Multiple choice (one answer)

What do sebaceous glands produce ?

- ☐ Sweat
 - ☐ Oil
 - ☐ Platelets
-

Question 108

Multiple choice (one answer)

In galvanic iontophoresis who holds the positive electrode?

- ☐ Esthetician holds positive electrode
 - ☐ Client holds positive electrode
 - ☐ There is no positive
-

Question 109

Multiple choice (one answer)

What is the largest bone in the face?

- ☐ Mandible
- ☐ Maxilla
- ☐ Cranium

Question 110

Multiple choice (one answer)

A means of sterilization would require the use of an?

- ☐ sanitizer
 - ☐ autoclave
 - ☐ disinfectant
-

Question 111

Multiple choice (one answer)

What is a term for fungus?

- ☐ Mold
 - ☐ Mushroom
 - ☐ Tinea
-

Question 112

Multiple choice (one answer)

What are the bones of the cheek called?

- ☐ zygomatic
 - ☐ mentalis
 - ☐ maxillary
-

Question 113

Multiple choice (one answer)

Which is the growing stage of hair?

- ☐ Telogen
 - ☐ Anagen
 - ☐ Androgen
-

Question 114

Multiple choice (one answer)

What is a parasite?

- ☐ scabies
 - ☐ larvae
 - ☐ viruses
-

Question 115

Multiple choice (one answer)

An ingredient for brightening the skin ?

- ☐ bearberry
 - ☐ seaweed
 - ☐ Lemon
-

Question 116

Multiple choice (one answer)

What should be used on the skin after tweezing and waxing?

- ☐ Toner
 - ☐ Cleanser
 - ☐ Antiseptic
-

Question 117

Multiple choice (one answer)

What does the circulatory system do?

- ☐ Transports blood through the body
 - ☐ Transports blood through the heart
 - ☐ Transports blood to and from the brain
-

Question 118

Multiple choice (one answer)

What does the digestive system do ?

- ☐ Breaks down food into particles
 - ☐ Makes enzymes from food
 - ☐ Breaks down food
-

Question 119

Multiple choice (one answer)

What does the endocrine system do?

- ☐ Regulates body temperature
 - ☐ Produces most of the body's hormones
 - ☐ Produces the body's hormones
-

Question 120

Multiple choice (one answer)

What is the layer of skin the esthetician is most concerned with?

- ☐ Stratum Crunam
 - ☐ Stratum basal
 - ☐ Stratum Corneum
-

Question 121

Multiple choice (one answer)

What does the nervous system do?

- ☐ Controls all systems
 - ☐ Controls nerves
 - ☐ It is the body's control system
-

Question 122

Multiple choice (one answer)

What does the respiratory system do?

- ☐ Brings air into the body and removes carbon dioxide
 - ☐ Brings air into the lungs
 - ☐ Controls breathing
-

Question 123

Multiple choice (one answer)

What is a permanent method of hair removal ?

- ☐ laser
- ☐ IPL
- ☐ electrology

Question 124

Multiple choice (one answer)

What does the skeletal system do?

- ☐ Shapes body
 - ☐ Shapes body and protects organs
 - ☐ Protects organs
-

Question 125

Multiple choice (one answer)

What are the layers of the skin that contain keratin?

- ☐ Stratum basal
 - ☐ Dermis
 - ☐ Epidermis
-

Question 126

Multiple choice (one answer)

When a blood spill occurs what should you do?

- ☐ Stop service
 - ☐ sanitize hands, clean up blood, and throw bag away
 - ☐ Tell client and use a bandaid
-

Question 127

Multiple choice (one answer)

When using anaphoresis what procedure are you performing?

- ☐ High Frequency
 - ☐ Iontophoresis
 - ☐ Desincrustation
-

Question 128

Multiple choice (one answer)

What is cataphoresis ?

- ☐ Anaphoresis
 - ☐ Iontophoresis
 - ☐ Friction
-

Question 129

Multiple choice (one answer)

The Stratum Corneum is made up of

- ☐ Proteins
 - ☐ Keratinocytes
 - ☐ Melanocytes
-

Question 130

Multiple choice (one answer)

The largest bone in the face is the

- ☐ Frontal
 - ☐ Mandible
 - ☐ Zygomatic
-

Question 131

Multiple choice (one answer)

What is the lowest level in infection control?

- ☐ Sterilize
 - ☐ Disinfection
 - ☐ Sanitation
-

Question 132

Multiple choice (one answer)

What skin type has no visible pores and is thin?

- ☐ Oily skin
 - ☐ Dry skin
 - ☐ Dehydrated skin
-

Question 133

Multiple choice (one answer)

What is excoriation

- ☐ Scraping lesions, causing abrasion
 - ☐ Acne
 - ☐ Bacteria
-

Question 134

Multiple choice (one answer)

Last layer of the epidermis sometimes called the basal layer

- ☐ germinativum
 - ☐ corneum
 - ☐ lucidum
-

Question 135

Multiple choice (one answer)

Cataphoresis is?

- ☐ iontophoresis
 - ☐ alternating current
 - ☐ direct current
-

Question 136

Multiple choice (one answer)

What is the term when a person picks and scrapes at acne lesions?

- ☐ acne excoeree
 - ☐ p bacteria
 - ☐ acne vulgaris
-

Question 137

Multiple choice (one answer)

Stratum corneum is made up of ?

- ☐ corneocytes
- ☐ fibers
- ☐ cells

Question 138

Multiple choice (one answer)

The simplest form of chemical matter is

- ☐ element
 - ☐ molecule
 - ☐ atom
-

Question 139

Multiple choice (one answer)

An ingredient that attracts water to skin

- ☐ humectant
 - ☐ mask
 - ☐ seaweed
-

Question 140

Multiple choice (one answer)

Ingredient special delivery systems are

- ☐ mask
 - ☐ microsponges, liposomes, vehicles, nanospheres
 - ☐ neither answer correct
-

Question 141

Multiple choice (one answer)

What makes up the pliability of the skin

- ☐ fibers
 - ☐ collagen, elastin
 - ☐ neither answer correct
-

Question 142

Multiple choice (one answer)

Excessive buildup of tissue

- ☐ fibers
 - ☐ collagen
 - ☐ hypertrophic scar
-

Question 143

Multiple choice (one answer)

The procerous muscle is between

- ☐ the mentalis and mandible
 - ☐ melasma
 - ☐ the eyebrows
-

Question 144

Multiple choice (one answer)

high frequency uses?

- ☐ alternating current
 - ☐ direct current
 - ☐ microcurrent
-

Question 145

Multiple choice (one answer)

Why is an example of sanitation?

- ☐ no answer correct
 - ☐ washing laundry
 - ☐ washing hands
-

Question 146

Multiple choice (one answer)

What is the collagen percentage in the dermis?

- ☐ 20%
 - ☐ 70%
 - ☐ 50%
-

Question 147

Multiple choice (one answer)

When a person shows no symptoms of a disease

- ☐ non contagious
 - ☐ a carrier
 - ☐ asymptomatic
-

Question 148

Multiple choice (one answer)

A protective film that covers the surface of the skin. It is composed mainly of sweat, sebum and water, Defends the skin against bacteria, a barrier

- ☐ alpidic
 - ☐ lipid
 - ☐ hydrolipidic
-

Question 149

Multiple choice (one answer)

What essential oil is antibacterial?

- ☐ witch hazel
 - ☐ lemongrass
 - ☐ nettles
-

Question 150

Multiple choice (one answer)

When performing indirect high frequency who holds the electrode?

- ☐ client
 - ☐ esthetician
 - ☐ there is only direct high frequency
-

Question 151

Multiple choice (one answer)

Basal Cell Carcinoma looks like?

- ☐ bumpy, scaly, and red patches
- ☐ pearly, rough, bumpy, shiny pink or red patches that are sometimes scaly.

- ☐ silver white and rough texture
-

Question 152

Multiple choice (one answer)

UVB rays

- ☐ cause burning
 - ☐ cause aging
 - ☐ cause heatstroke
-

Question 153

Multiple choice (one answer)

UVA rays

- ☐ cause sweating and bumps
 - ☐ cause burning
 - ☐ cause aging
-

Question 154

Multiple choice (one answer)

Galvanic current is low voltage and

- ☐ high amperage
 - ☐ neither answer correct
 - ☐ alternating current
-

Question 155

Multiple choice (one answer)

What can be applied to skin after extractions?

- ☐ moisturizer
 - ☐ astringent, toner
 - ☐ mask
-

Question 156

Multiple choice (one answer)

Product ingredients called vehicles can do what

- ☐ penetrate deeper
 - ☐ dry skin
 - ☐ moisturizer
-

Question 157

Multiple choice (one answer)

Machine settings should be

- ☐ written on home treatment notes
 - ☐ written on client chart
 - ☐ told to the client
-

Question 158

Multiple choice (one answer)

An autoclave is a form of

- ☐ sterilization
 - ☐ sanitation
 - ☐ disinfection
-

Question 159

Multiple choice (one answer)

Cleansers contain

- ☐ sulfate
 - ☐ calcium
 - ☐ surfactants
-

Question 160

Multiple choice (one answer)

A term for loss of an electron is

- ☐ compounding
- ☐ oxidative stress
- ☐ oxidation
