

Master Esthetics 2025 Group D August

Question 1

Multiple choice (one answer)

What could you use in place of facial steaming?

- ☐ Parrafin
- ☐ Hot towels
- ☐ Mummy Mask

Correct answer: Hot towels

Question 2

Multiple choice (one answer)

What is the ingredient in Botox?

- ☐ Botulus
- ☐ Microbial Botulinum
- ☐ Clostridium Botulinum

Correct answer: Clostridium Botulinum

Question 3

Multiple choice (one answer)

What is the purpose of the skin analysis?

- ☐ Determine what exfoliant to use
- ☐ Determine skin type and skin condition
- ☐ Determine size of pores

Correct answer: Determine skin type and skin condition

Question 4

Multiple choice (one answer)

What is OSHA? Regulates Safety in the workplace.

- ☐ Occupational Safety and Health Administration
- ☐ Ogannizing Safety and Health Ability

☐ Occupational System and Health Administration

Correct answer: Occupational Safety and Health Administration

Question 5

Multiple choice (one answer)

If you are doing a service and notice a disease, what do you do?

- ☐ Stop service after cleanse
- ☐ Refer to a physician
- ☐ Tell client

Correct answer: Refer to a physician

Question 6

Multiple choice (one answer)

What is the main purpose of cotton compresses?

- ☐ Mask removal
- ☐ Not to spread bacteria
- ☐ Skin soothing

Correct answer: Mask removal

Question 7

Multiple choice (one answer)

Describe the diamond face shape?

- ☐ Hairline is low on forehead
- ☐ Temples wider than chin narrow
- ☐ Hairline narrow, jaw comes to point at chin

Correct answer: Hairline narrow, jaw comes to point at chin

Question 8

Multiple choice (one answer)

What is a contraindication to a body wrap?

- ☐ Keratoses
- ☐ Diabetes
- ☐ Acne

Correct answer: Diabetes

Question 9

Multiple choice (one answer)

Know all your face shapes from makeup - What is contouring?

- ☐ Using different shades of make up to bring out features or face shape
- ☐ Using bronzer to define jawline
- ☐ Using brushes to apply make up

Correct answer: Using different shades of make up to bring out features or face shape

Question 10

Multiple choice (one answer)

How should wax application be applied?

- ☐ Straight line
- ☐ flat against skin
- ☐ 45 degree angle

Correct answer: 45 degree angle

Question 11

Multiple choice (one answer)

What causes the skin to be yellow, gray, and sallow?

- ☐ Smoking
- ☐ Stress
- ☐ Alcohol

Correct answer: Smoking

Question 12

Multiple choice (one answer)

What is the Pilosebaceous unit referred to as?

- ☐ Hair Follicle
- ☐ Hair Shaft
- ☐ Hair Root

Correct answer: Hair Follicle

Question 13

Multiple choice (one answer)

How would you do proper tweezing?

- ☐ Hold skin tight and pull in the direction of hair growth
- ☐ Hold skin tight and pull straight
- ☐ Pull fast in the direction of hair growth

Correct answer: Hold skin tight and pull in the direction of hair growth

Question 14

Multiple choice (one answer)

What needs to be done when using a woods lamp?

- ☐ Use in a dark room
- ☐ Assess skin conditions
- ☐ Get as close to skin as possible

Correct answer: Use in a dark room

Question 15

Multiple choice (one answer)

What is a cleanser applied with?

- ☐ Sponges
- ☐ Brushes
- ☐ Fingers

Correct answer: Fingers

Question 16

Multiple choice (one answer)

What is applied after a depilatory wax ?

- ☐ Powder
- ☐ Petroleum
- ☐ Liquid Astringent

Correct answer: Liquid Astringent

Question 17

Multiple choice (one answer)

What is the main purpose of body wraps ?

- ☐ Lose water weight
- ☐ To detoxify
- ☐ Soften skin

Correct answer: To detoxify

Question 18

Multiple choice (one answer)

What is the skeletal structure that protects heart, lungs, and internal organs?

- ☐ Tendons
- ☐ Thorax
- ☐ Muscular Tissue

Correct answer: Thorax

Question 19

Multiple choice (one answer)

What is the definition of phytotherapy ?

- ☐ Antiseptics
- ☐ aromatherapy oils
- ☐ plant or plant extracts used in or on the body

Correct answer: plant or plant extracts used in or on the body

Question 20

Multiple choice (one answer)

Where does your lymphatics system empty into?

- ☐ Pulmonary System
- ☐ Circulatory System
- ☐ Axillary System

Correct answer: Circulatory System

Question 21

Multiple choice (one answer)

What is the definition of Natural Immunity?

- ☐ Able to resist illnesses, inherited
- ☐ Able to resist illnesses after body overcomes disease
- ☐ After a disease

Correct answer: Able to resist illnesses, inherited

Question 22

Multiple choice (one answer)

Where do hair follicles originate?

- ☐ Epidermis
- ☐ In the hair root
- ☐ In the dermis

Correct answer: In the dermis

Question 23

Multiple choice (one answer)

Define Keratosis

- ☐ A growth
- ☐ A cyst
- ☐ A build up of keratin on the skin

Correct answer: A build up of keratin on the skin

Question 24

Multiple choice (one answer)

What is the definition of a Humectant?

- ☐ Attracts and retains moisture in the air by absorbing
- ☐ O/ W mixture
- ☐ Heavier Creams

Correct answer: Attracts and retains moisture in the air by absorbing

Question 25

Multiple choice (one answer)

What is retinoic acid ?

- ☐ Vitamin E
- ☐ Vitamin A
- ☐ Vitamin A - 1

Correct answer: Vitamin A

Question 26

Multiple choice (one answer)

How many pints of blood are in the average adult ?

- ☐ 12 (12)
- ☐ 10 (Ten)
- ☐ 5 (Five)

Correct answer: 10 (Ten)

Question 27

Multiple choice (one answer)

Where does the skin get its main source of nutrients?

- ☐ Platelets
- ☐ Hemoglobin
- ☐ Blood and Lymph

Correct answer: Blood and Lymph

Question 28

Multiple choice (one answer)

What is the bodies largest Organ ?

- ☐ Jaw
- ☐ Lungs
- ☐ Skin

Correct answer: Skin

Question 29

Multiple choice (one answer)

What is Vitiligo?

- ☐ Depigmentation of sections of the skin
- ☐ Brown spots on neck
- ☐ Absence of Melanin

Correct answer: Depigmentation of sections of the skin

Question 30

Multiple choice (one answer)

An exfoliant that is rolled off the skin is a ?

- ☐ Enzyme
- ☐ Gommage
- ☐ Oatmeal

Correct answer: Gommage

Question 31

Multiple choice (one answer)

In what layer can you find melanocytes ?

- ☐ Basal Layer
- ☐ Granulosum
- ☐ Spinosum

Correct answer: Basal Layer

Question 32

Multiple choice (one answer)

What is a cancer that looks like pearls?

- ☐ Squamous Cell
- ☐ Basal Cell Carcinoma
- ☐ Melanoma

Correct answer: Basal Cell Carcinoma

Question 33

Multiple choice (one answer)

What regulates the strength of electrical current?

- ☐ rheostat
- ☐ Amp
- ☐ Conductor

Correct answer: rheostat

Question 34

Multiple choice (one answer)

What contraindicates the use of a suction machine?

- ☐ Couperose
- ☐ Sunburn
- ☐ Edema

Correct answer: Couperose

Question 35

Multiple choice (one answer)

How many cranial bones are there?

- ☐ 12
- ☐ 8 (Eight)
- ☐ 14

Correct answer: 8 (Eight)

Question 36

Multiple choice (one answer)

How many facial bones are there?

- ☐ 12 (twelve)
- ☐ 8 (eight)
- ☐ 14 (fourteen)

Correct answer: 14 (fourteen)

Question 37

Multiple choice (one answer)

What muscle connects the occiptitalis and frontalis?

- ☐ Membrane
- ☐ Tendons
- ☐ Aponeurosis

Correct answer: Aponeurosis

Question 38

Multiple choice (one answer)

What is a precaution or contraindication for a facial massage?

- ☐ High blood pressure
- ☐ Braces
- ☐ Low Blood pressure

Correct answer: High blood pressure

Question 39

Multiple choice (one answer)

What does organic mean?

- ☐ Substances having no carbon
- ☐ Substances having carbon to carbon bonds
- ☐ Free of free radicals

Correct answer: Substances having carbon to carbon bonds

Question 40

Multiple choice (one answer)

What does inorganic mean ?

- ☐ Arising from natural growth
- ☐ Matter not derived from natural growth or living organisms, not containing carbon
- ☐ Compounds that contain carbon

Correct answer: Matter not derived from natural growth or living organisms, not containing carbon

Question 41

Multiple choice (one answer)

When massaging the hands and arms, what muscles would you affect ?

- ☐ Radius
- ☐ Pronators, supinators, flexors, and extensors
- ☐ Ulna

Correct answer: Pronators, supinators, flexors, and extensors

Question 42

Multiple choice (one answer)

What are differences between involuntary and voluntary muscles?

- ☐ Striated and non striated
- ☐ Other names for them.
- ☐ Automatic

Correct answer: Striated and non striated

Question 43

Multiple choice (one answer)

What holds products together?

- ☐ Parabens
- ☐ Binders
- ☐ Fibers

Correct answer: Binders

Question 44

Multiple choice (one answer)

What is an acidic product on the pH scale?

- ☐ 1-7
- ☐ 0-6.9
- ☐ 0 - 6

Correct answer: 0-6.9

Question 45

Multiple choice (one answer)

What is the difference between acids and alkalines ?

- ☐ Acids on ph scale 0 up to 7, Alkalies 7-14
- ☐ Acids on ph scale are 1-7, Alkalies 6-14
- ☐ Acids on ph scale are 0-5, Alkalies 7-14

Correct answer: Acids on ph scale 0 up to 7, Alkalies 7-14

Question 46

Multiple choice (one answer)

What do sensory nerves do?

- ☐ Use axons to send impulses to brain
- ☐ Carry impulses to the central nervous system, brain
- ☐ Transport impulses from the central nervous system

Correct answer: Carry impulses to the central nervous system, brain

Question 47

Multiple choice (one answer)

What do motor nerves do ?

- ☐ Use neurons to help muscles to move
- ☐ Carry impulses from the brain to muscles, which trigger muscles to contract
- ☐ Carry impulses to the central nervous system

Correct answer: Carry impulses from the brain to muscles, which trigger muscles to contract

Question 48

Multiple choice (one answer)

What is a silicone?

- ☐ A primer
- ☐ An emollient that covers the skin to help keep moisture in
- ☐ A chemically derived product to fill in lines

Correct answer: An emollient that covers the skin to help keep moisture in

Question 49

Multiple choice (one answer)

Which of the following is not a bacteria?

- ☐ Fungi, Scabies
- ☐ Cocci, Bacilli, Spirilla
- ☐ Virus, Bacilli

Correct answer: Fungi, Scabies

Question 50

Multiple choice (one answer)

What is the most common form of cleaning in the spa?

- ☐ Sweeping
- ☐ Antiseptics and disinfectants
- ☐ Autoclave

Correct answer: Antiseptics and disinfectants

Question 51

Multiple choice (one answer)

What rays cause burning ?

- ☐ UVB
- ☐ UVC
- ☐ UVA

Correct answer: UVB

Question 52

Multiple choice (one answer)

What is another name for Herpes Simplex virus?

- ☐ Cold Sores
- ☐ Red sores
- ☐ Lip virus

Correct answer: Cold Sores

Question 53

Multiple choice (one answer)

What is Rosacea?

- ☐ Edema of the skin
- ☐ an inflammatory skin condition and sometimes has comedones present
- ☐ An itchy red lesion on the face

Correct answer: an inflammatory skin condition and sometimes has comedones present

Question 54

Multiple choice (one answer)

What is the most stimulating massage movement?

- ☐ Friction
- ☐ Tapotment
- ☐ Effleurage

Correct answer: Tapotment

Question 55

Multiple choice (one answer)

Where is the ideal brow suppose to end?

- ☐ Wherever it looks better
- ☐ In the middle of the eye
- ☐ At the corner of the eye (outside)

Correct answer: At the corner of the eye (outside)

Question 56

Multiple choice (one answer)

What does steaming the face do?

- ☐ Makes pores smaller
- ☐ Helps with exfoliation
- ☐ Softens dead skin cells

Correct answer: Softens dead skin cells

Question 57

Multiple choice (one answer)

What does the FDA define cosmetics as?

- ☐ For Cleansing, beautifying, and promoting attractiveness
- ☐ Cleansing, exfoliating, and moisturizing
- ☐ Organic and inorganic products

Correct answer: For Cleansing, beautifying, and promoting attractiveness

Question 58

Multiple choice (one answer)

What is another name from blackhead?

- ☐ Comedone
- ☐ Sebaceous fillaments
- ☐ Open Comedone

Correct answer: Open Comedone

Question 59

Multiple choice (one answer)

What is pathogenic?

- ☐ Pus formation
- ☐ Diseasing causing bacteria
- ☐ Infection

Correct answer: Diseasing causing bacteria

Question 60

Multiple choice (one answer)

What normalizes body temperature?

- ☐ Eccrine glands
- ☐ Apocrine glands
- ☐ Sebaceous glands

Correct answer: Eccrine glands

Question 61

Multiple choice (one answer)

Whom cannot receive high frequency?

- ☐ people with high blood pressure
- ☐ people with acne
- ☐ people with pacemakers

Correct answer: people with pacemakers

Question 62

Multiple choice (one answer)

The definition of Balneotherapy is?

- ☐ Exfoliating the skin
- ☐ Water therapy for treatment of skin conditions (bath)
- ☐ Vichy shower treatments

Correct answer: Water therapy for treatment of skin conditions (bath)

Question 63

Multiple choice (one answer)

What is the definition of Aromatherapy?

- ☐ Using water and plant oils for well being
- ☐ Using essential oils for well being (physical and psychological)
- ☐ Using perfume to stimulate senses

Correct answer: Using essential oils for well being (physical and psychological)

Question 64

Multiple choice (one answer)

What is the definition of Ayurvedic?

- ☐ The ancient (indian)Hindu science of health and medicine
- ☐ One of many essential oils
- ☐ A system that uses popular principles of medicine

Correct answer: The ancient (indian)Hindu science of health and medicine

Question 65

Multiple choice (one answer)

What is the definition of Acupuncture?

- ☐ A Chinese medical practice that involves the insertion of fine needles through the skin
- ☐ Manipulations of the skin to treat illness
- ☐ An herbal treatment for diseases

Correct answer: A Chinese medical practice that involves the insertion of fine needles through the skin

Question 66

Multiple choice (one answer)

Define Hydriatics

- ☐ A form of ancient healing
- ☐ Use of water to treat or cure disease
- ☐ Use of algae to treat skin conditions

Correct answer: Use of water to treat or cure disease

Question 67

Multiple choice (one answer)

Define Thalassotherapy

- ☐ Mud masks
- ☐ Essential oil bath
- ☐ Therapeutic use of ocean and marine products to restore

Correct answer: Therapeutic use of ocean and marine products to restore

Question 68

Multiple choice (one answer)

What is another name for pore?

- ☐ Small pore
- ☐ Ostia or ostium
- ☐ Large pore

Correct answer: Ostia or ostium

Question 69

Multiple choice (one answer)

Combination Skin is a mixture of ?

- ☐ Dry and Normal skin
- ☐ Oily and Dry skin
- ☐ Sensitive and Normal skin

Correct answer: Oily and Dry skin

Question 70

Multiple choice (one answer)

What does the androgen hormone do?

- ☐ Responsible for oily skin and acne. Male Hormone
- ☐ Regulates oil production
- ☐ Produces oil

Correct answer: Responsible for oily skin and acne. Male Hormone

Question 71

Multiple choice (one answer)

What in an antigen?

- ☐ Histamine
- ☐ Allergen
- ☐ Foreign invader

Correct answer: Foreign invader

Question 72

Multiple choice (one answer)

What is the peripheral nervous system ?

- ☐ Sensors of heat
- ☐ The top of the spine
- ☐ The portion of the nervous system outside the central nervous system

Correct answer: The portion of the nervous system outside the central nervous system

Question 73

Multiple choice (one answer)

Which ingredient does not require specifics in cosmetic labeling?

- ☐ Dyes
- ☐ Colors
- ☐ Fragrance

Correct answer: Fragrance

Question 74

Multiple choice (one answer)

What is a surfactant?

- ☐ Fatty acid that helps with blood vessel dilation in intercellular cement
- ☐ Substance that reduces surface tension such as detergent
- ☐ Fatty Alcohols

Correct answer: Substance that reduces surface tension such as detergent

Question 75

Multiple choice (one answer)

What is high frequency?

- ☐ Fusion Current
- ☐ An alternating current
- ☐ Direct Current

Correct answer: An alternating current

Question 76

Multiple choice (one answer)

What is Galvanic Current?

- ☐ Direct current
- ☐ Alternating current
- ☐ Indirect current

Correct answer: Direct current

Question 77

Multiple choice (one answer)

What is the horse shoe pigmentation called?

- ☐ Melasma
- ☐ Chronic mottled pigmentation
- ☐ Poikiloderma of Cevattes

Correct answer: Poikiloderma of Cevattes

Question 78

Multiple choice (one answer)

Define Ohm?

- ☐ The unit of electrical resistance
- ☐ Electricity conductor
- ☐ Insulator

Correct answer: The unit of electrical resistance

Question 79

Multiple choice (one answer)

What is a Volt?

- ☐ A unit for electric potential between 2 points
- ☐ Strength
- ☐ An ampere

Correct answer: A unit for electric potential between 2 points

Question 80

Multiple choice (one answer)

Define Amp?

- ☐ A closed loop that electrons can travel in.
- ☐ Unit of measure for the strength of an electrical current
- ☐ An electrical charge

Correct answer: Unit of measure for the strength of an electrical current

Question 81

Multiple choice (one answer)

Define Circuit?

- ☐ A closed loop that electrons can travel in.
- ☐ An insulator
- ☐ A conductor

Correct answer: A closed loop that electrons can travel in.

Question 82

Multiple choice (one answer)

What is the definition of Hertz?

- ☐ Frequency used in electricity
- ☐ Potential of energy
- ☐ An international measure of electrical frequency (cycles per second)

Correct answer: An international measure of electrical frequency (cycles per second)

Question 83

Multiple choice (one answer)

What is the woods lamp used for?

- ☐ To look at the Stratum Corneum
- ☐ To determine skin conditions
- ☐ To look at hair

Correct answer: To determine skin conditions

Question 84

Multiple choice (one answer)

What are the contraindications electrical treatments?

- ☐ Drugs, seaweed, lactic acid
- ☐ Epilepsy, pacemakers, pregnancy, metal pins and plates

Correct answer: Epilepsy, pacemakers, pregnancy, metal pins and plates

Question 85

Multiple choice (one answer)

What are melanosomes?

- ☐ Small granules filled with melanin, manufactured by melanocytes
- ☐ Cells that produce melanin
- ☐ Small sacs that produce a tan

Correct answer: Small granules filled with melanin, manufactured by melanocytes

Question 86

Multiple choice (one answer)

What are Desmosomes?

- ☐ Intercellular junctions in skin tissue that maintain structural integrity of tissues
- ☐ They secrete oil attached to hair bulb
- ☐ Another name for a layer of skin

Correct answer: Intercellular junctions in skin tissue that maintain structural integrity of tissues

Question 87

Multiple choice (one answer)

What is desquamation?

- ☐ Skin cells that are shed and are sloughed away and replaced
- ☐ Peeling of fingertips
- ☐ The second layer of skin

Correct answer: Skin cells that are shed and are sloughed away and replaced

Question 88

Multiple choice (one answer)

What holds the epidermis and dermis together?

- ☐ Desmosomes
- ☐ Dermal Papillae
- ☐ Papillary Layer

Correct answer: Dermal Papillae

Question 89

Multiple choice (one answer)

What are Apocrine glands? Where are they located

- ☐ Oil glands in the dermis
- ☐ Sweat glands in the dermis
- ☐ They secrete hormones into a duct, located in the skin

Correct answer: They secrete hormones into a duct, located in the skin

Question 90

Multiple choice (one answer)

Define Eccrine glands? Where are they located

- ☐ Coiled structures deep in the skin
- ☐ Essential sweat glands that regulate body heat
- ☐ Found all over the body, and produce no odor

Correct answer: Essential sweat glands that regulate body heat

Question 91

Multiple choice (one answer)

Define Sebaceous gland? Where are they located

- ☐ They secrete oil attached to hair bulb
- ☐ Tubular glands that secrete hormones
- ☐ They are sweat glands located in the skin

Correct answer: They are sweat glands located in the skin

Question 92

Multiple choice (one answer)

What is the machine called that is used to sterilize implements ?

- ☐ Steam UV cabinet
- ☐ Autoclave
- ☐ Sanitizer

Correct answer: Autoclave

Question 93

Multiple choice (one answer)

What is the Pituitary Gland and where is it located?

- ☐ A hormone, responsible for growth
- ☐ A large gland in the skull
- ☐ A small endocrine system organ in the base of the brain

Correct answer: A small endocrine system organ in the base of the brain

Question 94

Multiple choice (one answer)

What are examples of Ceramides?

- ☐ Sphingolipids or glyosphingolipids
- ☐ GAGS
- ☐ Yeast derivatives

Correct answer: Sphingolipids or glyosphingolipids

Question 95

Multiple choice (one answer)

What are enzymes?

- ☐ Proteolytic (protein dissolving)
- ☐ Scrubs
- ☐ Used for cell breakdown

Correct answer: Proteolytic (protein dissolving)

Question 96

Multiple choice (one answer)

What is hyperthyroidism?

- ☐ Too much production of thyroid gland. Thinning skin, hair loss, and weight loss
- ☐ Depletes oxygen
- ☐ Thickening of the skin and weight loss

Correct answer: Too much production of thyroid gland. Thinning skin, hair loss, and weight loss

Question 97

Multiple choice (one answer)

Microdermabrasion machines use Diamond tip, Aluminum Corundum and What?

- ☐ Filtered Sand
- ☐ Sand
- ☐ Salt

Correct answer: Salt

Question 98

Multiple choice (one answer)

What is hypothyroidism?

- ☐ Too little production of thyroid gland. Facial swelling and weight loss
- ☐ A childhood disorder
- ☐ Too much production of thyroid gland. Facial swelling, and weight loss

Correct answer: Too little production of thyroid gland. Facial swelling and weight loss

Question 99

Multiple choice (one answer)

What is dehydrated skin caused from?

- ☐ Lack of moisture in the skin
- ☐ Lack of oil in the skin
- ☐ A build up of scar tissue in the skin

Correct answer: Lack of moisture in the skin

Question 100

Multiple choice (one answer)

What is a small, round, hard lesion under the skin called ?

- ☐ Milia
- ☐ Comedone
- ☐ Cyst

Correct answer: Milia

Question 101

Multiple choice (one answer)

A snake like lesion?

- ☐ Serpiginous
- ☐ Serpentine rash
- ☐ A cyst

Correct answer: Serpiginous

Question 102

Multiple choice (one answer)

What is Pityriasis Rosea?

- ☐ Itchy rash
- ☐ A benign rash with parches on the skin
- ☐ A childhood disorder

Correct answer: A benign rash with parches on the skin

Question 103

Multiple choice (one answer)

What is the definition of Atopic Dermatitis?

- ☐ Skin disorder that involves an itchy rash (eczema)
- ☐ A pruritic disease that begins in childhood
- ☐ A disease of unknown origin

Correct answer: Skin disorder that involves an itchy rash (eczema)

Question 104

Multiple choice (one answer)

Define Contact Dermatitis

- ☐ An antibody
- ☐ Skin reaction resulting from exposure to allergens
- ☐ A disease that involves build up of scar tissue in the skin

Correct answer: Skin reaction resulting from exposure to allergens

Question 105

Multiple choice (one answer)

What is Psoriasis?

- ☐ Skin condition that causes red patches and silver white scales
- ☐ A disease
- ☐ Dandruff

Correct answer: Skin condition that causes red patches and silver white scales

Question 106

Multiple choice (one answer)

Define Tinea Vesicolor

- ☐ An infectious disorder
- ☐ A long term fungal infection of the skin
- ☐ Corpuscles

Correct answer: A long term fungal infection of the skin

Question 107

Multiple choice (one answer)

What kind of charge does a neutron have?

- ☐ 2 x charge
- ☐ No Charge
- ☐ An electrical charge

Correct answer: No Charge

Question 108

Multiple choice (one answer)

What kind of charges do electrons have?

- ☐ A positive electric charge
- ☐ A neutral Charge
- ☐ A negative electric charge

Correct answer: A negative electric charge

Question 109

Multiple choice (one answer)

What are Protons ?

- ☐ A positive electric charge
- ☐ A form of electricity
- ☐ A electrical charge

Correct answer: A positive electric charge

Question 110

Multiple choice (one answer)

What is a term broken or distended capillaries ?

- ☐ Edema of the skin
- ☐ Eyrethema
- ☐ Couperose Skin

Correct answer: Couperose Skin

Question 111

Multiple choice (one answer)

What are peptides ?

- ☐ Two or more amino acids linked in a chain
- ☐ A protein
- ☐ Used to regulate hormones

Correct answer: Two or more amino acids linked in a chain

Question 112

Multiple choice (one answer)

What is Sodium Lauryl Sulfate?

- ☐ Microsponge
- ☐ A surfactant in Cleansers
- ☐ Ingredient used in shampoo

Correct answer: A surfactant in Cleansers

Question 113

Multiple choice (one answer)

What is Carbomer?

- ☐ A moisturizer
- ☐ An emulsifier
- ☐ A gel

Correct answer: An emulsifier

Question 114

Multiple choice (one answer)

What is a microsponge?

- ☐ Absorbs products
- ☐ Specialized delivery system
- ☐ A small ingredient

Correct answer: Specialized delivery system

Question 115

Multiple choice (one answer)

What is ascorbic acid?

- ☐ Vitamin C
- ☐ Vitamin A - 1
- ☐ Vitamin C & A

Correct answer: Vitamin C

Question 116

Multiple choice (one answer)

What does smoking do the skin?

- ☐ Depletes oxygen
- ☐ Restricts oxygen and depletes vitamin C
- ☐ Restricts oxygen and depletes vitamin D

Correct answer: Restricts oxygen and depletes vitamin C

Question 117

Multiple choice (one answer)

Ingredients List explain Humectants

- ☐ Moisturizers
- ☐ Moisturizing blend of ingredients near the top of ingredients list
- ☐ Occlusive products

Correct answer: Moisturizing blend of ingredients near the top of ingredients list

Question 118

Multiple choice (one answer)

Define what a ruptured follicle from extraction is

- ☐ Too much pressure when extracting pustule or comedone
- ☐ Abnormal bleeding from comedone
- ☐ Bruising skin

Correct answer: Too much pressure when extracting pustule or comedone

Question 119

Multiple choice (one answer)

What is vasodilation ?

- ☐ Increase of blood flow
- ☐ Decrease in blood flow
- ☐ Vein disorder

Correct answer: Increase of blood flow

Question 120

Multiple choice (one answer)

What is an eyelid surgery called called?

- ☐ Rhinoplasty
- ☐ Blepharoplasty
- ☐ Orbit Eye Surgery

Correct answer: Blepharoplasty

Question 121

Multiple choice (one answer)

What does the plant Chamomile do ?

- ☐ Hydrates Skin
- ☐ Cools Skin
- ☐ Calms Skin

Correct answer: Calms Skin

Question 122

Multiple choice (one answer)

What is the definition of Immunity?

- ☐ Aquired after the body has overcome a disease
- ☐ A nonspecific immunity to infection
- ☐ The bodies ability to resist infection and destroy bacteria

Correct answer: The bodies ability to resist infection and destroy bacteria

Question 123

Multiple choice (one answer)

When the skin peels slightly after an exfoliation which layer is peeling?

- ☐ Stratum Corneum
- ☐ Stratum Granulosum
- ☐ Papillary Dermis

Correct answer: Stratum Corneum

Question 124

Multiple choice (one answer)

What does Kaolin do ?

- ☐ Keeps masks wet
- ☐ Dries and used in masks for oily skin
- ☐ Thermal feeling

Correct answer: Dries and used in masks for oily skin

Question 125

Multiple choice (one answer)

A document from a manufacturer featuring the properties and other information of a product is called a ?

- ☐ Univeral Precautions
- ☐ MSDS Sheet
- ☐ Ingredient List

Correct answer: MSDS Sheet

Question 126

Multiple choice (one answer)

What can be used on the hands after the hair is touched??

- ☐ Soap
- ☐ Sanitizer (hand)
- ☐ Disenfectant

Correct answer: Sanitizer (hand)

Question 127

Multiple choice (one answer)

What is the Fitzpatrick Scale ?

- ☐ Scale used to gauge wrinkles
- ☐ Scale used to measure hypopigmentation
- ☐ Scale used to see how long a person can be in the sun before a burn

Correct answer: Scale used to see how long a person can be in the sun before a burn

Question 128

Multiple choice (one answer)

What is intrinsic aging ?

- ☐ Wrinkles
- ☐ Smoking Damage
- ☐ Dehydration due to skin aging

Correct answer: Dehydration due to skin aging

Question 129

Multiple choice (one answer)

What portion of the face is not covered by a warm towel ?

- ☐ Nostrils
- ☐ Cheeks
- ☐ Eyes

Correct answer: Nostrils

Question 130

Multiple choice (one answer)

A Precaution and / or contraindication to using a seaweed based product is?

- ☐ Clients allergic to algae or shellfish
- ☐ If skin is oily
- ☐ If client is pregnant

Correct answer: Clients allergic to algae or shellfish

Question 131

Multiple choice (one answer)

What is Cell Mitosis ?

- ☐ Cells are called this in the Stratum corneum
- ☐ When the cell divides
- ☐ When the cell dies

Correct answer: When the cell divides

Question 132

Multiple choice (one answer)

What light does the Wood's Lamp use?

- ☐ Filtered black light
- ☐ Blue Light
- ☐ Argon Light

Correct answer: Filtered black light

Question 133

Multiple choice (one answer)

Contraindications for a body treatment

- ☐ Varicose Veins
- ☐ Spider veins
- ☐ Dermal spots

Correct answer: Varicose Veins

Question 134

Multiple choice (one answer)

What layer does Microdermabrasion work on?

- ☐ Stratum Corneum
- ☐ Stratum Granulosum
- ☐ All Epidermis

Correct answer: Stratum Corneum

Question 135

Multiple choice (one answer)

Fitzpatrick Skin Types that Benefit from Laser

- ☐ All types
- ☐ 1-4
- ☐ 2-4

Correct answer: 1-4

Question 136

Multiple choice (one answer)

Steamers use distilled water unless directed by manufacturer

- ☐ False
- ☐ True
- ☐ Neither answer correct

Correct answer: True

Question 137

Multiple choice (one answer)

What is the muscle massaged that covers neck and chest?

- ☐ Platsmya
- ☐ Mentalis
- ☐ Clavicle

Correct answer: Platsmya

Question 138

Multiple choice (one answer)

What is a Microdermabrasion Contraindication?

- ☐ High blood pressure
- ☐ Sunburn
- ☐ Varicose Veins

Correct answer: Sunburn

Question 139

Multiple choice (one answer)

Which skin types contraindicate Laser treatments?

- ☐ All types
- ☐ Light skin
- ☐ Very dark skin

Correct answer: Very dark skin

Question 140

Multiple choice (one answer)

What can dark eye shadow used for when applying make up?

- ☐ Conceal drooping lids
- ☐ Eyes that recede
- ☐ Eyes that protrude

Correct answer: Eyes that protrude

Question 141

Multiple choice (one answer)

What is a massage movement used on very oily skin ?

- ☐ Dr Jacquet movement
- ☐ Tapotment
- ☐ Friction

Correct answer: Dr Jacquet movement

Question 142

Multiple choice (one answer)

What is the definition of Algo Therapy?

- ☐ A treatment using seawater and seaweed
- ☐ Body wrap
- ☐ Body treatment

Correct answer: A treatment using seawater and seaweed

Question 143

Multiple choice (one answer)

What is a Mammoplasty?

- ☐ When having breast reduction
- ☐ A surgical procedure to breast augmentation, reduction, and reconstruction
- ☐ When having breast lift

Correct answer: A surgical procedure to breast augmentation, reduction, and reconstruction

Question 144

Multiple choice (one answer)

What is the palm of the hand called ?

- ☐ Metacarpus
- ☐ Phalanges
- ☐ Carpus

Correct answer: Metacarpus

Question 145

Multiple choice (one answer)

What is facial highlighting ?

- ☐ Cover imperfections on the skin
- ☐ Bring out definition of certain facial features (high planes of the face)
- ☐ Recede Hairline

Correct answer: Bring out definition of certain facial features (high planes of the face)

Question 146

Multiple choice (one answer)

What is impetigo?

- ☐ A contagious bacterial skin infection, highly contagious
- ☐ An infection caused by bacilli
- ☐ A viral itchy skin infection

Correct answer: A contagious bacterial skin infection, highly contagious

Question 147

Multiple choice (one answer)

Sodium Lauryl is a common ingredient found in?

- ☐ Toners
- ☐ Gels
- ☐ Cleansers

Correct answer: Cleansers

Question 148

Multiple choice (one answer)

What is the subcutaneous layer of the skin called??

- ☐ Adipose Tissue
- ☐ Epidermis
- ☐ Fat Tissue

Correct answer: Adipose Tissue

Question 149

Multiple choice (one answer)

What is Cellulite?

- ☐ Lesions of fat
- ☐ Thin skin with fat deposits
- ☐ Dimpled appearance of skin caused by fat deposits that are just below the surface of the skin

Correct answer: Dimpled appearance of skin caused by fat deposits that are just below the surface of the skin

Question 150

Multiple choice (one answer)

An abcess is what kind of infection?

- ☐ A cyst
- ☐ A general infection
- ☐ A local infection

Correct answer: A local infection

Question 151

Multiple choice (one answer)

What do sebaceous glands produce ?

- ☐ Platelets
- ☐ Oil
- ☐ Sweat

Correct answer: Oil

Question 152

Multiple choice (one answer)

What is the medical term for cluster of boils?

- ☐ Carbuncles
- ☐ Furuncle
- ☐ Vesicles

Correct answer: Carbuncles

Question 153

Multiple choice (one answer)

In a galvanic iontophoresis procedure where is the (Positive) electrode placed?

- ☐ Esthetician holds positive electrode
- ☐ Client holds positive electrode
- ☐ There is no positive

Correct answer: Esthetician holds positive electrode

Question 154

Multiple choice (one answer)

What does Electrolysis do?

- ☐ A growth of hair
- ☐ Destroys hair follicle that produces the hair. Is a permanent method
- ☐ Laser hair removal

Correct answer: Destroys hair follicle that produces the hair. Is a permanent method

Question 155

Multiple choice (one answer)

What is the definition of a Fissure?

- ☐ A disorder
- ☐ A split or crack in the skin
- ☐ A cut

Correct answer: A split or crack in the skin

Question 156

Multiple choice (one answer)

How is paraffin applied when doing it on the face?

- ☐ Brush
- ☐ Gauze
- ☐ Hands

Correct answer: Brush

Question 157

Multiple choice (one answer)

Which ethnicity ages slowest?

- ☐ Indian
- ☐ Asian
- ☐ African American

Correct answer: African American

Question 158

Multiple choice (one answer)

What do the Sudoriferous glands do ?

- ☐ help eliminate stress
- ☐ help control body temperature
- ☐ produce bacteria
- ☐ `

Correct answer: help control body temperature

Question 159

Multiple choice (one answer)

How many metacarpals are in the palm?

- ☐ Six
- ☐ Four
- ☐ Five

Correct answer: Five

Question 160

Multiple choice (one answer)

What do sudoriferous glands produce?

- ☐ Eccrine glands
- ☐ Hormones
- ☐ Perspiration

Correct answer: Perspiration

Question 161

Multiple choice (one answer)

What is the largest bone in the face?

- ☐ Mandible
- ☐ Cranium
- ☐ Maxilla

Correct answer: Mandible

Question 162

Multiple choice (one answer)

Medical term for eyelashes

- ☐ Cilia
- ☐ Cili
- ☐ Ostium

Correct answer: Cili

Question 163

Multiple choice (one answer)

What massage movement do you use to apply moisturizer?

- ☐ Petrissage
- ☐ Effleurage
- ☐ Patting

Correct answer: Effleurage

Question 164

Multiple choice (one answer)

Cleanser is removed starting from where?

- ☐ Anywhere
- ☐ Forehead
- ☐ Chin

Correct answer: Chin

Question 165

Multiple choice (one answer)

What is the space between collagen and elastin in the dermis?

- ☐ Reticulin (structural fiber, creates a fine meshwork)
- ☐ Rete Peg
- ☐ Desmosome

Correct answer: Reticulin (structural fiber, creates a fine meshwork)

Question 166

Multiple choice (one answer)

With laser, which hair color isn't effective?

- ☐ Blonde
- ☐ Auburn
- ☐ Gray

Correct answer: Gray

Question 167

Multiple choice (one answer)

What color does the skin turn if the peel is too deep?

- ☐ Red
- ☐ Yellow
- ☐ White

Correct answer: White

Question 168

Multiple choice (one answer)

What is another name for Accutane?

- ☐ Isotretinoin
- ☐ Vitamin A&C
- ☐ Vitamin E

Correct answer: Isotretinoin

Question 169

Multiple choice (one answer)

When a thermal mask cools, it does what?

- ☐ Hydrates
- ☐ Tightens and Tones
- ☐ Tones only

Correct answer: Tightens and Tones

Question 170

Multiple choice (one answer)

A means of sterilization would require the use of an?

- ☐ Sterilizer
- ☐ Barbicide
- ☐ Autoclave

Correct answer: Autoclave

Question 171

Multiple choice (one answer)

What is the term for fungus?

- ☐ Mushroom
- ☐ Tinea
- ☐ Mold

Correct answer: Tinea

Question 172

Multiple choice (one answer)

What is non pathogenic bacteria dependant on?

- ☐ minerals
- ☐ Vitamin C
- ☐ Absorbency of vitamins

Correct answer: Absorbency of vitamins

Question 173

Multiple choice (one answer)

What is an example of a non pathogenic fungus?

- ☐ Molds
- ☐ Fungi
- ☐ Tinea

Correct answer: Molds

Question 174

Multiple choice (one answer)

Reflexology is a treatment commonly used where?

- ☐ The feet
- ☐ The head
- ☐ The hands and feet

Correct answer: The hands and feet

Question 175

Multiple choice (one answer)

Define Ayurveda

- ☐ Healing with water
- ☐ An ancient Greek healing science
- ☐ An ancient Indian approach to skincare, Science of Life

Correct answer: An ancient Indian approach to skincare, Science of Life

Question 176

Multiple choice (one answer)

What skin type (according to ethnicity) is most sensitive to AHA'S ?

- ☐ African American
- ☐ Asian
- ☐ Indian

Correct answer: Asian

Question 177

Multiple choice (one answer)

Ascorbic Acid is also known as?

- ☐ Vitamin C Ester
- ☐ Co enzyme Q 10
- ☐ Vitamin C

Correct answer: Vitamin C

Question 178

Multiple choice (one answer)

What are conductors and insulators?

- ☐ Electricity flows freely with a conductor. It can't through a insulator
- ☐ Nothing
- ☐ Electricity flows through a hertz

Correct answer: Electricity flows freely with a conductor. It can't through a insulator

Question 179

Multiple choice (one answer)

What is a benefit of UV Rays?

- ☐ Depilation
- ☐ Brightness
- ☐ Disinfecting

Correct answer: Disinfecting

Question 180

Multiple choice (one answer)

Which is the growing stage of hair?

- ☐ Androgen
- ☐ Telogen
- ☐ Anagen

Correct answer: Anagen

Question 181

Multiple choice (one answer)

What is Scabies caused by?

- ☐ Virus
- ☐ Mites
- ☐ Parasites

Correct answer: Parasites

Question 182

Multiple choice (one answer)

What do body secretions do for us?

- ☐ Fight Bacteria
- ☐ Cools body
- ☐ Makes sweat

Correct answer: Fight Bacteria

Question 183

Multiple choice (one answer)

Rosacea contraindicates

- ☐ Microdermabrasion
- ☐ Galvanic
- ☐ Ultrasonic

Correct answer: Microdermabrasion

Question 184

Multiple choice (one answer)

What peel does the coagulation of protein in the skin cause the skin to frost?

- ☐ BHA's
- ☐ TCA and Jessner
- ☐ 60% AHA

Correct answer: TCA and Jessner

Question 185

Multiple choice (one answer)

Why is it important to let the client rest after a body treatment?

- ☐ Resting regains equilibrium
- ☐ They might feel drowsy
- ☐ Their legs might be asleep

Correct answer: Resting regains equilibrium

Question 186

Multiple choice (one answer)

An ingredient for calming is ?

- ☐ Lemon
- ☐ Comfrey
- ☐ Licorice

Correct answer: Comfrey

Question 187

Multiple choice (one answer)

What should be used on the skin after tweezing and waxing?

- ☐ Antiseptic
- ☐ Cleanser
- ☐ Toner

Correct answer: Antiseptic

Question 188

Multiple choice (one answer)

What does the circulatory system do?

- ☐ Transports blood through the heart
- ☐ Transports blood to and from the brain
- ☐ Transports blood through the body

Correct answer: Transports blood through the body

Question 189

Multiple choice (one answer)

What does the digestive system do ?

- ☐ Makes enzymes from food
- ☐ Breaks down food
- ☐ Breaks down food into particles

Correct answer: Breaks down food

Question 190

Multiple choice (one answer)

What does the endocrine system do?

- ☐ Regulates body temperature
- ☐ Produces the body's hormones
- ☐ Produces most of the body's hormones

Correct answer: Produces the body's hormones

Question 191

Multiple choice (one answer)

What does the lymphatic system do?

- ☐ A network of vessels that help circulate body fluids
- ☐ A network of filaments that filter waste from the body
- ☐ Vessels that open and close

Correct answer: A network of vessels that help circulate body fluids

Question 192

Multiple choice (one answer)

What does the nervous system do?

- ☐ Controls nerves
- ☐ It is the body's control system
- ☐ Controls all systems

Correct answer: It is the body's control system

Question 193

Multiple choice (one answer)

What does the respiratory system do?

- ☐ Brings air into the body and removes carbon dioxide
- ☐ Brings air into the lungs
- ☐ Controls breathing

Correct answer: Brings air into the body and removes carbon dioxide

Question 194

Multiple choice (one answer)

What does the urinary system do ?

- ☐ Eliminates waste from body
- ☐ Eliminates waste from the body. (urine)
- ☐ Helps to flush waste from the body

Correct answer: Eliminates waste from the body. (urine)

Question 195

Multiple choice (one answer)

What does the skeletal system do?

- ☐ Shapes body
- ☐ Protects organs
- ☐ Shapes body and protects organs

Correct answer: Shapes body and protects organs

Question 196

Multiple choice (one answer)

Describe the oval face shape

- ☐ An upside down egg
- ☐ Jawline tapered
- ☐ Forehead wider than chin, jawline will be a bit rounded

Correct answer: Forehead wider than chin, jawline will be a bit rounded

Question 197

Multiple choice (one answer)

Describe a square face shape

- ☐ Jawline defined
- ☐ face has a wider straight jawline and forehead
- ☐ Face as wide as it is long

Correct answer: face has a wider straight jawline and forehead

Question 198

Multiple choice (one answer)

What are the layers of the skin that contain keratin?

- ☐ Epidermis
- ☐ Dermis
- ☐ Hypodermis

Correct answer: Epidermis

Question 199

Multiple choice (one answer)

Describe round face shape

- ☐ Widest at cheeks, jawline straight
- ☐ Cheekbones are the widest part of face, jawline curved
- ☐ Widest at temples

Correct answer: Cheekbones are the widest part of face, jawline curved

Question 200

Multiple choice (one answer)

Describe the heart face shape

- ☐ Widest at forehead
- ☐ Long pointed jaw, chin is the smallest part of the face
- ☐ Oval jaw, cheekbones high

Correct answer: Long pointed jaw, chin is the smallest part of the face

Question 201

Multiple choice (one answer)

Describe oblong face shape

- ☐ Rectangular, face is longer and less wide
- ☐ Temples widest part of face
- ☐ Slightly oval with long jaw

Correct answer: Rectangular, face is longer and less wide

Question 202

Multiple choice (one answer)

Describe the diamond face shape

- ☐ Narrow chin, cheeks most prominent feature
- ☐ Tapered chin, wider at forehead
- ☐ Wider a forehead, narrow chint

Correct answer: Narrow chin, cheeks most prominent feature

Question 203

Multiple choice (one answer)

Describe a square face shape

- ☐ Sides of face straight jawline defined
- ☐ Face as wide as it is long
- ☐ Jawline defined

Correct answer: Sides of face straight jawline defined

Question 204

Multiple choice (one answer)

When a blood spill occurs what should you do?

- ☐ Stop service
- ☐ Wipe up blood and throw trash away
- ☐ Tell client and use a bandaid

Correct answer: Stop service

Question 205

Multiple choice (one answer)

When using anaphoresis what procedure are you performing?

- ☐ Iontophoresis
- ☐ High Frequency
- ☐ Desincrustation

Correct answer: Desincrustation

Question 206

Multiple choice (one answer)

What is cataphoresis ?

- ☐ Iontophoresis
- ☐ Friction
- ☐ Anaphoresis

Correct answer: Iontophoresis

Question 207

Multiple choice (one answer)

The Stratum Corneum is made up of

- ☐ Melanocytes
- ☐ Proteins
- ☐ Keratinocytes

Correct answer: Keratinocytes

Question 208

Multiple choice (one answer)

What is severe oiliness of the skin called ?

- ☐ Seborrhea
- ☐ Rosacea
- ☐ Acne

Correct answer: Seborrhea

Question 209

Multiple choice (one answer)

When extracting with a lancet what angle is the lancet held ?

- ☐ Parallel
- ☐ 90 degree angle
- ☐ It does not matter

Correct answer: Parallel

Question 210

Multiple choice (one answer)

What is the hair growth stage when the hair detaches from the bulb?

- ☐ Telogen
- ☐ Anagen
- ☐ Catagen

Correct answer: Catagen

Question 211

Multiple choice (one answer)

When massaging the skin we work from insertion to origin

- ☐ True
- ☐ Neither answer correct
- ☐ False

Correct answer: True

Question 212

Multiple choice (one answer)

The largest bone in the face is the

- ☐ Zygomatic
- ☐ Frontal
- ☐ Mandible

Correct answer: Mandible

Question 213

Multiple choice (one answer)

What is the lowest level in infection control?

- ☐ Sterilize
- ☐ Sanitation
- ☐ Disinfection

Correct answer: Sanitation

Question 214

Multiple choice (one answer)

Which acid is used to exfoliate the dead skin cells from the Stratum Corneum?

- ☐ Salicylic
- ☐ Enzymes
- ☐ Phenol

Correct answer: Salicylic

Question 215

Multiple choice (one answer)

When assessing the client's skin check for

- ☐ freckles
- ☐ pore size
- ☐ skin type and conditions

Correct answer: skin type and conditions

Question 216

Multiple choice (one answer)

What skin type has no visible pores and is thin?

- ☐ Oily skin
- ☐ Dehydrated skin
- ☐ Dry skin

Correct answer: Dry skin

Question 217

Multiple choice (one answer)

Mineral deposits and damage to the steam machine if what water is not used?

- ☐ Spring Water
- ☐ Distilled Water
- ☐ Tap Water

Correct answer: Distilled Water

Question 218

Multiple choice (one answer)

What is excoriation

- ☐ Bacteria
- ☐ Scraping lesions, causing abrasion
- ☐ Acne

Correct answer: Scraping lesions, causing abrasion

Question 219

Multiple choice (one answer)

What should be applied to the skin after waxing?

- ☐ Baby Powder
- ☐ Some type of soothing lotion
- ☐ Petroleum Jelly

Correct answer: Some type of soothing lotion

Question 220

Multiple choice (one answer)

What ethnic group of people has the strongest hair follicle?

- ☐ Asian
- ☐ French
- ☐ African

Correct answer: Asian

Question 221

Multiple choice (one answer)

After a person has cosmetic surgery how long should the esthetician wait before doing a lymphatic drainage treatment?

- ☐ 2 weeks
- ☐ 5 days
- ☐ 1 week

Correct answer: 1 week

Question 222

Multiple choice (one answer)

How does the skin get its nourishment?

- ☐ Blood to the capillaries
- ☐ arteries
- ☐ veins

Correct answer: Blood to the capillaries

Question 223

Multiple choice (one answer)

What is a contraindication of using electrical modalities on a person?

- ☐ metal in body
- ☐ pacemaker
- ☐ telangiectasia

Correct answer: pacemaker

Question 224

Multiple choice (one answer)

What electrical current is high frequency?

- ☐ national electric
- ☐ alternating current
- ☐ direct current

Correct answer: alternating current

Question 225

Multiple choice (one answer)

What is microcurrent?

- ☐ alternating current
- ☐ direct current
- ☐ wave therapy, low voltage current

Correct answer: wave therapy, low voltage current

Question 226

Multiple choice (one answer)

Ayurvedic uses

- ☐ zen
- ☐ pathways
- ☐ neural crests

Correct answer: pathways

Question 227

Multiple choice (one answer)

Anaphoresis is

- ☐ positive waves
- ☐ neither answer correct
- ☐ desincrustation

Correct answer: desincrustation

Question 228

Multiple choice (one answer)

Benign rash

- ☐ nettles
- ☐ fungus
- ☐ pityriasis rosea, tinea corporis, herpes

Correct answer: pityriasis rosea, tinea corporis, herpes

Question 229

Multiple choice (one answer)

Last layer of the epidermis sometimes called the basal layer

- ☐ lucidum
- ☐ corneum
- ☐ germinativum

Correct answer: germinativum

Question 230

Multiple choice (one answer)

Cataphoresis is?

- ☐ alternating current
- ☐ direct current
- ☐ iontophoresis

Correct answer: iontophoresis

Question 231

Multiple choice (one answer)

Ayurvedic uses?

- ☐ neural crests
- ☐ zen
- ☐ pathways

Correct answer: pathways

Question 232

Multiple choice (one answer)

What is a fungus?

- ☐ single cell, produces spores producing organism
- ☐ mushroom
- ☐ virus

Correct answer: single cell, produces spores producing organism

Question 233

Multiple choice (one answer)

Endocrine System

- ☐ part of the respiratory system
- ☐ sweat glands
- ☐ glands that secrete hormones

Correct answer: glands that secrete hormones

Question 234

Multiple choice (one answer)

Antigen?

- ☐ virus
- ☐ glands
- ☐ immune response produces antibodies

Correct answer: immune response produces antibodies

Question 235

Multiple choice (one answer)

Stratum corneum is made up of ?

- ☐ fibers
- ☐ cells
- ☐ corneocytes

Correct answer: corneocytes

Question 236

Multiple choice (one answer)

What is the apocrine gland?

- ☐ does not produce sweat
- ☐ on the arms
- ☐ In the skin produces odor

Correct answer: In the skin produces odor

Question 237

Multiple choice (one answer)

Addison's disease

- ☐ neither answer correct
- ☐ produces too much cortisol
- ☐ does not produce enough cortisol, hormone, produced by adrenal gland

Correct answer: does not produce enough cortisol, hormone, produced by adrenal gland

Question 238

Multiple choice (one answer)

Cushings disease?

- ☐ neither answer correct
- ☐ excess of steroid hormone. pituitary gland produces too much hormone
- ☐ not enough hormone made

Correct answer: excess of steroid hormone. pituitary gland produces too much hormone

Question 239

Multiple choice (one answer)

What is the peripheal nervous system?

- ☐ neither answer correct
- ☐ connects to the brain
- ☐ connects to the sensory organs. Outside the brain and spinal cord

Correct answer: connects to the sensory organs. Outside the brain and spinal cord

Question 240

Multiple choice (one answer)

Atopic dermatitis

- ☐ pruritic disease
- ☐ damp skin
- ☐ neither answer correct

Correct answer: pruritic disease

Question 241

Multiple choice (one answer)

The simplest form of chemical

- ☐ molecule
- ☐ atom
- ☐ element

Correct answer: element

Question 242

Multiple choice (one answer)

What layer of skin are the Merkel cells in?

- ☐ reticular
- ☐ found in the basal layer (epidermas)
- ☐ dermis

Correct answer: found in the basal layer (epidermas)

Question 243

Multiple choice (one answer)

ingredient that attracts water to skin

- ☐ seaweed
- ☐ humectant
- ☐ mask

Correct answer: humectant

Question 244

Multiple choice (one answer)

Contraindication of high frequency

- ☐ pacemaker
- ☐ diabetes
- ☐ high blood pressure

Correct answer: pacemaker

Question 245

Multiple choice (one answer)

What layer does a phenol peel go to?

- ☐ granulosum
- ☐ reticular
- ☐ basal

Correct answer: reticular

Question 246

Multiple choice (one answer)

A characteristic of a pathogenic organism

- ☐ disease caused by organisms, bacteris, viruses, parasites, and fungi
- ☐ not harmful
- ☐ neither answer correct

Correct answer: disease caused by organisms, bacteris, viruses, parasites, and fungi

Question 247

Multiple choice (one answer)

Ingredient special delivery systems are

- ☐ mask
- ☐ microsponges, liposomes, vehicles, nanospheres
- ☐ neither answer correct

Correct answer: microsponges, liposomes, vehicles, nanospheres

Question 248

Multiple choice (one answer)

What makes up the pliability of the skin

- ☐ neither answer correct
- ☐ collagen, elastin
- ☐ fibers

Correct answer: collagen, elastin

Question 249

Multiple choice (one answer)

What does organic mean?

- ☐ coming from non living matter
- ☐ neither answer correct
- ☐ coming from living matter

Correct answer: coming from living matter

Question 250

Multiple choice (one answer)

What does non organic mean?

- ☐ neither answer correct
- ☐ in vivo
- ☐ is not derived from living matter

Correct answer: is not derived from living matter

Question 251

Multiple choice (one answer)

Excessive buildup of tissue

- ☐ scar, keloid, hypertrophic scar
- ☐ fibers
- ☐ collagen

Correct answer: scar, keloid, hypertrophic scar

Question 252

Multiple choice (one answer)

Hypothyroid?

- ☐ not enough thyroid hormones made
- ☐ too much hormone made
- ☐ No answer correct

Correct answer: not enough thyroid hormones made

Question 253

Multiple choice (one answer)

Desquamation?

- ☐ outerlayer of skin sheds, skin peeling
- ☐ dermis breakdown
- ☐ blood exposure

Correct answer: outerlayer of skin sheds, skin peeling

Question 254

Multiple choice (one answer)

Desmosomes

- ☐ elements
- ☐ matter
- ☐ substance that holds cells together

Correct answer: substance that holds cells together

Question 255

Multiple choice (one answer)

What is histamine?

- ☐ c) ceramides
- ☐ something released by cells in response to injury, allergic reactions
- ☐ a cold

Correct answer: something released by cells in response to injury, allergic reactions

Question 256

Multiple choice (one answer)

What is the androgen hormone?

- ☐ Male hormone , male characteristics, converts to estrogen in women
- ☐ arteries
- ☐ Hormone produced by teens only

Correct answer: Male hormone , male characteristics, converts to estrogen in women

Question 257

Multiple choice (one answer)

Where are melanocytes located?

- ☐ papillary layer
- ☐ basal, germinativum layer
- ☐ granulosum layer

Correct answer: basal, germinativum layer

Question 258

Multiple choice (one answer)

The procerous muscle is between

- ☐ the mentalis and mandible
- ☐ the eyebrows
- ☐ melasma

Correct answer: the eyebrows

Question 259

Multiple choice (one answer)

What is the parotid gland

- ☐ hormone gland near the ears
- ☐ taste buds
- ☐ salivary gland on each side of face just below the front of the ear

Correct answer: salivary gland on each side of face just below the front of the ear

Question 260

Multiple choice (one answer)

What is keratosis

- ☐ tumors
- ☐ benign skin growths
- ☐ cysts

Correct answer: benign skin growths

Question 261

Multiple choice (one answer)

A peel that penetrates to the papillary dermis

- ☐ deep peel
- ☐ medium depth
- ☐ superficial

Correct answer: medium depth

Question 262

Multiple choice (one answer)

high frequency

- ☐ alternating current
- ☐ direct current
- ☐ microcurrent

Correct answer: alternating current

Question 263

Multiple choice (one answer)

What is applied to skin after a depilatory like waxing

- ☐ antiseptic
- ☐ powder
- ☐ toner

Correct answer: antiseptic

Question 264

Multiple choice (one answer)

What is sclerotherapy ?

- ☐ targets spider veins and varicose veins
- ☐ dissolves actinic keratosis
- ☐ targets veins

Correct answer: targets spider veins and varicose veins

Question 265

Multiple choice (one answer)

What is microcurrent

- ☐ high voltage wave
- ☐ low voltage wave therapy, mimics the bodies electric current
- ☐ galvanic

Correct answer: low voltage wave therapy, mimics the bodies electric current

Question 266

Multiple choice (one answer)

lymphatic system empties into

- ☐ veins
- ☐ arteries
- ☐ ducts

Correct answer: ducts

Question 267

Multiple choice (one answer)

What is cavitation?

- ☐ exfoliation treatments
- ☐ humectant procedures
- ☐ iontophoresis

Correct answer: exfoliation treatments

Question 268

Multiple choice (one answer)

A person who has hepatitis c

- ☐ does not have symptoms, or mild flu like
- ☐ turns red
- ☐ turns yellow

Correct answer: does not have symptoms, or mild flu like

Question 269

Multiple choice (one answer)

What is Oncology?

- ☐ tumor
- ☐ cyst
- ☐ Treatment of cancer

Correct answer: Treatment of cancer

Question 270

Multiple choice (one answer)

What is a Rhytidectomy?

- ☐ face lift, surgical removal of loose skin
- ☐ chin lift
- ☐ eye lift

Correct answer: face lift, surgical removal of loose skin

Question 271

Multiple choice (one answer)

What is a Blepharoplasty?

- ☐ chin lift
- ☐ face lift
- ☐ eye lift, removes fat and skin from upper eye lids and lower eyes

Correct answer: eye lift, removes fat and skin from upper eye lids and lower eyes

Question 272

Multiple choice (one answer)

What can a laser cause?

- ☐ pupura, crust, burn
- ☐ keratosis
- ☐ warts

Correct answer: pupura, crust, burn

Question 273

Multiple choice (one answer)

What is an Ultrasonic treatment and contraindications

- ☐ varicose veins
- ☐ diabetes
- ☐ exfoliation treatments, penetrates, pacemaker

Correct answer: exfoliation treatments, penetrates, pacemaker

Question 274

Multiple choice (one answer)

What holds water to the skin surface and increase hydration of the cells and surface of the skin..

- ☐ carbomer
- ☐ serum
- ☐ hyalauronic acid

Correct answer: hyalauronic acid

Question 275

Multiple choice (one answer)

Dilutes an essential oil

- ☐ mixture
- ☐ carrier
- ☐ lotion

Correct answer: carrier

Question 276

Multiple choice (one answer)

Tubular structures in the skin that produce sweat. Sweat glands are a type of exocrine gland

- ☐ sebaceous gland
- ☐ merkel gland
- ☐ sudoriferous gland

Correct answer: sudoriferous gland

Question 277

Multiple choice (one answer)

Salicylic Acid

- ☐ BHA
- ☐ enzyme
- ☐ AHA

Correct answer: BHA

Question 278

Multiple choice (one answer)

AHA Peel?

- ☐ phenol
- ☐ jessner
- ☐ lactic, citric acid, alpha hydroxy acid

Correct answer: lactic, citric acid, alpha hydroxy acid

Question 279

Multiple choice (one answer)

Melanoma?

- ☐ Most severe skin cancer, can be deadly
- ☐ cyst
- ☐ keratosis

Correct answer: Most severe skin cancer, can be deadly

Question 280

Multiple choice (one answer)

What causes protein coagulation?

- ☐ acid peels
- ☐ cold
- ☐ microdermabrasion

Correct answer: acid peels

Question 281

Multiple choice (one answer)

What determines how many passes can be done with microderm ?

- ☐ redness
- ☐ skin conditions, thickness, telangietasia, sunburn,
- ☐ broken capillaries

Correct answer: skin conditions, thickness, telangietasia, sunburn,

Question 282

Multiple choice (one answer)

Why wear eye protection during microdermabrasion

- ☐ diamond residue
- ☐ no answer correct
- ☐ crystals buildup, leftover crystals in air

Correct answer: crystals buildup, leftover crystals in air

Question 283

Multiple choice (one answer)

vacuum machine contraindications

- ☐ varicose veins, telangietasia, thin skin, acne, sunburn
- ☐ thin skin
- ☐ spider veins

Correct answer: varicose veins, telangietasia, thin skin, acne, sunburn

Question 284

Multiple choice (one answer)

Contraindications for body wraps

- ☐ claustrophobia
- ☐ no answer correct
- ☐ too hot

Correct answer: claustrophobia

Question 285

Multiple choice (one answer)

Procedure of microdermabrasion

- ☐ wet the skin
- ☐ hold skin tight
- ☐ Degrease, dry the skin, hold skin tight, glide across skin, don't use too much pressure

Correct answer: Degrease, dry the skin, hold skin tight, glide across skin, don't use too much pressure

Question 286

Multiple choice (one answer)

What can increase the depth of a peel?

- ☐ dry skin
- ☐ oily skin
- ☐ skin dryness, oily, % of peel, what type of chemical, passes, time on skin

Correct answer: skin dryness, oily, % of peel, what type of chemical, passes, time on skin

Question 287

Multiple choice (one answer)

Vitamin C

- ☐ calcium
- ☐ ascorbic acid
- ☐ biotin

Correct answer: ascorbic acid

Question 288

Multiple choice (one answer)

What is done to elevate a peel?

- ☐ No answer correct
- ☐ peel %
- ☐ # of passes, skin condition, % of chemical

Correct answer: # of passes, skin condition, % of chemical

Question 289

Multiple choice (one answer)

Getting others infected

- ☐ carrier, contagious
- ☐ neither answer correct
- ☐ colds

Correct answer: carrier, contagious

Question 290

Multiple choice (one answer)

What is hydriatics?

- ☐ seaweed wrap
- ☐ using of water to treat or cure diseases
- ☐ neither answer correct

Correct answer: using of water to treat or cure diseases

Question 291

Multiple choice (one answer)

A protective film that covers the surface of the skin. It is composed mainly of sweat, sebum and water, Defends the skin against bacteria, abarrier

- ☐ hydrolipidic
- ☐ lipid
- ☐ salt

Correct answer: hydrolipidic

Question 292

Multiple choice (one answer)

What essential oil is calming?

- ☐ witch hazel
- ☐ ylang ylang, bergamot, cedarwood, bulgarian rose, orange, geranium, lavender
- ☐ lavender,

Correct answer: lavender,

Question 293

Multiple choice (one answer)

Essential oils that help with inflammation

- ☐ Eucalyptus.,Rosemary, Clary Sage, Juniper, Frankincense, Wintergreen,Chamomile
- ☐ rose
- ☐ spearmint

Correct answer: Eucalyptus.,Rosemary, Clary Sage, Juniper, Frankincense, Wintergreen,Chamomile

Question 294

Multiple choice (one answer)

Red Light

- ☐ colds
- ☐ circulation, healing, collagen stimulation, increases cell activity
- ☐ healing

Correct answer: circulation, healing, collagen stimulation, increases cell activity

Question 295

Multiple choice (one answer)

Blue LED?

- ☐ antibacterial, acne, coagulates lesions
- ☐ cell growth
- ☐ pain

Correct answer: antibacterial, acne, coagulates lesions

Question 296

Multiple choice (one answer)

Yellow LED Light

- ☐ acne
- ☐ veins
- ☐ lymphatic drainage, improves congestion

Correct answer: lymphatic drainage, improves congestion

Question 297

Multiple choice (one answer)

Green LED?

- ☐ hypopigmentation
- ☐ hyperpigmentation, dilated capillaries, sagging skin around the eyes, under eye circles.
- ☐ capillaries

Correct answer: hyperpigmentation, dilated capillaries, sagging skin around the eyes, under eye circles.

Question 298

Multiple choice (one answer)

Client irritation to product

- ☐ warm towel
- ☐ hot towels
- ☐ remove and use cold towel, neutralize,

Correct answer: remove and use cold towel, neutralize,

Question 299

Multiple choice (one answer)

Lies between collagen and elastin

- ☐ fibroblasts
- ☐ neither answer correct
- ☐ merkel cells

Correct answer: fibroblasts

Question 300

Multiple choice (one answer)

Where do hair follicles originate?

- ☐ merkel gland
- ☐ epidermis
- ☐ group of stem cells, dermis

Correct answer: group of stem cells, dermis

Question 301

Multiple choice (one answer)

Basal Cell Carcinoma looks like?

- ☐ pearly, rough, bumpy, shiny pink or red patches that are sometimes scaly.
- ☐ rough texture
- ☐ bumpy

Correct answer: pearly, rough, bumpy, shiny pink or red patches that are sometimes scaly.

Question 302

Multiple choice (one answer)

UVB rays

- ☐ cause burning
- ☐ cause aging
- ☐ cause heatstroke

Correct answer: cause burning

Question 303

Multiple choice (one answer)

UVA rays

- ☐ cause sweating and bumps
- ☐ cause aging
- ☐ cause burning

Correct answer: cause aging

Question 304

Multiple choice (one answer)

What is the chemical solution used on porous implements?

- ☐ boric acid
- ☐ ethylen oxide gas
- ☐ carbolic acid

Correct answer: ethylen oxide gas

Question 305

Multiple choice (one answer)

What can be applied to skin after extractions?

- ☐ moisturizer
- ☐ mask
- ☐ toner / astringent

Correct answer: toner / astringent

Question 306

Multiple choice (one answer)

What is a thermal mask and dries to a rubber like material and firms skin?

- ☐ cream mask
- ☐ modelage mask
- ☐ clay mask

Correct answer: modelage mask

Question 307

Multiple choice (one answer)

What kind of procedure is done before a Jessner peel?

- ☐ toner
- ☐ extractions
- ☐ dermaplaning

Correct answer: dermaplaning

Question 308

Multiple choice (one answer)

Cream exfoliant that removes skin cells

- ☐ gommage
- ☐ modelage
- ☐ grains

Correct answer: gommage

Question 309

Multiple choice (one answer)

A client on Acutane may have what hair removal technique performed

- ☐ sugaring
- ☐ threading
- ☐ waxing

Correct answer: threading

Question 310

Multiple choice (one answer)

What enzyme is in meat?

- ☐ enzymes
- ☐ microbes
- ☐ proteases

Correct answer: proteases

Question 311

Multiple choice (one answer)

Pregnant women can use what essential oil

- ☐ pennyroyal
- ☐ rose
- ☐ tea tree

Correct answer: tea tree

Question 312

Multiple choice (one answer)

IPL is what type of laser

- ☐ YAG
- ☐ ruby
- ☐ photomodulation

Correct answer: photomodulation

Question 313

Multiple choice (one answer)

Clients wanting exfoliation and also hair removed should have what procedure

- ☐ dermaplaning
- ☐ waxing
- ☐ depilatory

Correct answer: dermaplaning

Question 314

Multiple choice (one answer)

What muscle should microcurrent be used on for marionette lines

- ☐ zygomaticus major
- ☐ mandible
- ☐ mentalis

Correct answer: zygomaticus major

Question 315

Multiple choice (one answer)

Where would you perform microcurrent if the client has bunny lines?

- ☐ procerous
- ☐ mandible
- ☐ frontalis

Correct answer: procerous

Question 316

Multiple choice (one answer)

What current does electrodesiccation use?

- ☐ high frequency
- ☐ toner
- ☐ red current

Correct answer: high frequency

Question 317

Multiple choice (one answer)

Clients with egg shaped cysts should be referred to a

- ☐ esthetician
- ☐ doctor
- ☐ nurse

Correct answer: doctor

Question 318

Multiple choice (one answer)

What hair stage is best for hair removal

- ☐ telogen
- ☐ anagen
- ☐ catagen

Correct answer: anagen

Question 319

Multiple choice (one answer)

A contraindication for eyelash application is

- ☐ cold sore
- ☐ herpes
- ☐ conjunctivitis

Correct answer: conjunctivitis

Question 320

Multiple choice (one answer)

Water, fat and waste under the skin is called?

- ☐ adipose tissue
- ☐ cellulite
- ☐ dermis

Correct answer: cellulite

Question 321

Multiple choice (one answer)

Salt treatments are?

- ☐ easy
- ☐ stimulating and exfoliating
- ☐ hydrating

Correct answer: stimulating and exfoliating

Question 322

Multiple choice (one answer)

What is a treatment for cellulite and pre and post lipo treatments

- ☐ tapotment
- ☐ endermology
- ☐ chemicals

Correct answer: endermology

Question 323

Multiple choice (one answer)

A body treatment using steam has is

- ☐ shower
- ☐ scotch hose
- ☐ bath

Correct answer: scotch hose

Question 324

Multiple choice (one answer)

Telangiectasia or broken capillaries are from what body system

- ☐ seaweed
- ☐ respiratory
- ☐ circulatory

Correct answer: circulatory

Question 325

Multiple choice (one answer)

Thermal masks do what to the skin

- ☐ tighten and tone
- ☐ dry
- ☐ lemon peels

Correct answer: tighten and tone

Question 326

Multiple choice (one answer)

product ingredients called vehicles can do what

- ☐ penetrate deeper
- ☐ dry skin
- ☐ moisturizer

Correct answer: penetrate deeper

Question 327

Multiple choice (one answer)

A proteolytic treatment is called a

- ☐ lipid
- ☐ gommage
- ☐ seaweed

Correct answer: gommage

Question 328

Multiple choice (one answer)

When was the laser FDA approved

- ☐ 1985
- ☐ 1999
- ☐ 1979

Correct answer: 1985

Question 329

Multiple choice (one answer)

A common way to extract essential oils is

- ☐ alternating current
- ☐ cold press
- ☐ distillation

Correct answer: distillation

Question 330

Multiple choice (one answer)

Eyelashes should not be applied when?

- ☐ end stage
- ☐ growth stage
- ☐ herpes

Correct answer: growth stage

Question 331

Multiple choice (one answer)

What is phytotherapy?

- ☐ using plants for therapeutic treatments
- ☐ using salt for body treatments

Correct answer: using plants for therapeutic treatments

Question 332

Multiple choice (one answer)

What ethnicity has the thickest & coarse hair

- ☐ Asian
- ☐ African American
- ☐ Spanish

Correct answer: African American

Question 333

Multiple choice (one answer)

Microdermabrasion crystals can be aluminum oxide, salt and

- ☐ corundum
- ☐ diamond dust
- ☐ stones

Correct answer: corundum

Question 334

Multiple choice (one answer)

Fibromyalgia is a contraindication for what?

- ☐ face treatment
- ☐ leg treatment
- ☐ body wrap

Correct answer: body wrap

Question 335

Multiple choice (one answer)

Vitamin C is

- ☐ iron
- ☐ biotin
- ☐ l ascorbic acid

Correct answer: l ascorbic acid

Question 336

Multiple choice (one answer)

Asian skin is

- ☐ least sensitive to peels
- ☐ most sensitive to peels

Correct answer: most sensitive to peels

Question 337

Multiple choice (one answer)

Microcurrent allows penetration of product and enhances

- ☐ ATP
- ☐ lesions

Correct answer: ATP

Question 338

Multiple choice (one answer)

A lancet can be used on a

- ☐ bulla
- ☐ furuncle
- ☐ open comedone

Correct answer: open comedone

Question 339

Multiple choice (one answer)

Machine settings should be

- ☐ written on home treatment notes
- ☐ written on client chart

Correct answer: written on client chart

Question 340

Multiple choice (one answer)

The hair follicle is also called the

- ☐ dermal papilla
- ☐ pilli pore
- ☐ pore

Correct answer: dermal papilla

Question 341

Multiple choice (one answer)

An autoclave is a form of

- ☐ sanitation
- ☐ sterilization
- ☐ disinfection

Correct answer: sterilization

Question 342

Multiple choice (one answer)

What color is plasma

- ☐ red
- ☐ clear yellow
- ☐ black

Correct answer: clear yellow

Question 343

Multiple choice (one answer)

Cleansers contain

- ☐ calcium
- ☐ sodium lauryl sulfate
- ☐ sulfate

Correct answer: sodium lauryl sulfate

Question 344

Multiple choice (one answer)

Iodine allergy is a contraindication for

- ☐ body wrap
- ☐ bath therapy
- ☐ seaweed wrap

Correct answer: seaweed wrap

Question 345

Multiple choice (one answer)

Ayurveda term for chakras

- ☐ channel or pathway
- ☐ lines

Correct answer: channel or pathway

Question 346

Multiple choice (one answer)

A symptom of anemia is

- ☐ fatigue, paleness, craving,dizziness
- ☐ yellow skin
- ☐ blue skin

Correct answer: fatigue, paleness, craving,dizziness

Question 347

Multiple choice (one answer)

biochemical patterns ,24 hour physiocological process

- ☐ oscillation
- ☐ myers clock
- ☐ circadian rhythm

Correct answer: circadian rhythm

Question 348

Multiple choice (one answer)

lactic acid peels are used on

- ☐ dehydrated skin
- ☐ red skin
- ☐ Poor skin

Correct answer: dehydrated skin

Question 349

Multiple choice (one answer)

What is a theory about the cause of rosacea?

- ☐ itch mite
- ☐ red skin
- ☐ blood disorder

Correct answer: itch mite

Question 350

Multiple choice (one answer)

The lymph node in front of the ear is called

- ☐ preauricular
- ☐ frontal
- ☐ inguinal

Correct answer: preauricular

Question 351

Multiple choice (one answer)

A term for loss of an electron is

- ☐ oxidation stress
- ☐ reduction oxidation
- ☐ oxidation

Correct answer: oxidation

Question 352

Multiple choice (one answer)

What mask can be used for dry skin?

- ☐ sheet mask
- ☐ parafin mask
- ☐ clay mask

Correct answer: parafin mask

Question 353

Multiple choice (one answer)

What is another name for a dry skin condition called?

- ☐ asteatosis
- ☐ normal
- ☐ oily

Correct answer: asteatosis

Question 354

Multiple choice (one answer)

What is considered the true skin?

- ☐ dermis
- ☐ lucidum
- ☐ corneum

Correct answer: dermis
